

2017/02

Thank you certainly much for downloading **2017/02**. Maybe you have knowledge that, people have look numerous period for their favorite books following this 2017/02, but stop taking place in harmful downloads.

Rather than enjoying a fine book bearing in mind a cup of coffee in the afternoon, instead they juggled similar to some harmful virus inside their computer. **2017/02** is reachable in our digital library an online access to it is set as public appropriately you can download it instantly. Our digital library saves in combination countries, allowing you to get the most less latency time to download any of our books taking into consideration this one. Merely said, the 2017/02 is universally compatible considering any devices to read.

Checklists and Illustrative Financial Statements AICPA 2017-08-14 New for 2017--ASU No. 2016-14, Not-for-Profit

Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities. Questions have been added to the checklist for those

entities that may wish to early adopt this standard. Updates include: (ASU) No. 2016-13, Financial Instruments–Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments ASU No. 2016-14, Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force) ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, a consensus of the FASB Emerging Issues Task Force ASU No. 2017-02, Not-for-Profit Entities – Consolidation (Subtopic 958-810): Clarifying When a Not-for-Profit Entity That Is a General Partner or a

Limited Partner Should Consolidate a For-Profit Limited Partnership or Similar Entity (ASU) No. 2017-04, Intangibles–Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment Statement on Auditing Standards (SAS) No. 132, The Auditor’s Consideration of an Entity’s Ability to Continue as a Going Concern, Forming an Opinion and Reporting on Financial Statements (AICPA, Professional Standards, AU-C sec. 570) Statement on Standards for Accounting and Review Services No. 23, Statements on Standards for Accounting and Review Services: Omnibus Statement on Standards for Accounting and Review Services-2016 (AICPA, Professional Standards) Focus On: 100 Most Popular South Korean Idols Wikipedia contributors **Ukraine in the Crossfire** Chris Kaspar

de Ploeg 2017-04-05 Ukraine is embroiled in a bloody civil war. Both sides stand accused of collaborating with fascists, of committing war crimes, of serving foreign interests. This proxy-war between Russia and the West was accompanied by a fierce information war. This book separates fact from fiction with extensive and reliable documentation. While remaining critical of Russia and the Donbass rebellion, De Ploeg demonstrates that many of the recent disasters can be traced to Ukrainian ultranationalists, pro-western political elites and their European and North-American backers. Ukraine in the Crossfire tackles the importance of ultranationalist violence during and after the EuroMaidan movement, and documents how many of these groups are heirs to

former nazi-collaborators. It shows how the Ukrainian state has seized on the ultranationalist war-rhetoric to serve its own agenda, clamping down on civil liberties on a scale unprecedented since Ukrainian independence. De Ploeg argues that Kiev itself has been the biggest obstacle to peace in Donbass, with multiple leaks suggesting that US officials are pushing for a pro-war line in Ukraine. With the nation's eyes turned towards Russia, the EU and IMF have successfully pressured Ukraine into adopting far-reaching austerity programs, while oligarchic looting of state assets and massive tax-avoidance facilitated by western states continue unabated. De Ploeg documents the local roots of the Donbass rebellion, the overwhelming popularity of Crimea's secession, and

shows that support for Ukraine's pro-western turn remains far from unanimous, with large swathes of Ukraine's Russophone population opting out of the political process. Nevertheless, De Ploeg argues, the pro-Western and pro-Russian camps are often similar: neoliberal, authoritarian, nationalist and heavily dependent on foreign support. In a wider exploration of Russo-Western relations, he examines similarities between the contemporary Russian state and its NATO counterparts, showing how the two power blocs have collaborated in some of their worst violent excesses. A far cry from civilizational or ideological clashes, De Ploeg argues that the current tensions flow from NATO's military dominance and aggressive posture, both globally and

within eastern Europe, where Russia seeks to preserve the status-quo. Packed with shocking facts, deftly moving from the local to the international, from the historical to the recent; De Ploeg connects the dots.

Attack Surface Cory Doctorow
2020-10-13 Cory Doctorow's Attack Surface is a standalone novel set in the world of New York Times bestsellers Little Brother and Homeland. Most days, Masha Maximow was sure she'd chosen the winning side. In her day job as a counterterrorism wizard for an transnational cybersecurity firm, she made the hacks that allowed repressive regimes to spy on dissidents, and manipulate their

every move. The perks were fantastic, and the pay was obscene. Just for fun, and to piss off her masters, Masha sometimes used her mad skills to help those same troublemakers evade detection, if their cause was just. It was a dangerous game and a hell of a rush. But seriously self-destructive. And unsustainable. When her targets were strangers in faraway police states, it was easy to compartmentalize, to ignore the collateral damage of murder, rape, and torture. But when it hits close to home, and the hacks and exploits she's devised are directed at her friends and family--including boy wonder Marcus Yallow, her old crush and archrival, and his entourage of naïve idealists--Masha realizes she has to choose. And whatever choice she makes, someone is going to get

hurt. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Django RESTful Web Services Gaston C. Hillar 2018-01-25 Design, build and test RESTful web services with the Django framework and Python Key Features Create efficient real-world RESTful web services with the latest Django framework Authenticate, secure, and integrate third-party packages efficiently in your Web Services Leverage the power of Python for faster Web Service development Book Description Django is a Python web framework that makes the web development process very easy. It reduces the amount of trivial code, which simplifies the creation of web applications and results in faster development. It is very powerful and

a great choice for creating RESTful web services. If you are a Python developer and want to efficiently create RESTful web services with Django for your apps, then this is the right book for you. The book starts off by showing you how to install and configure the environment, required software, and tools to create RESTful web services with Django and the Django REST framework. We then move on to working with advanced serialization and migrations to interact with SQLite and non-SQL data sources. We will use the features included in the Django REST framework to improve our simple web service. Further, we will create API views to process diverse HTTP requests on objects, go through relationships and hyperlinked API management, and then discover the

necessary steps to include security and permissions related to data models and APIs. We will also apply throttling rules and run tests to check that versioning works as expected. Next we will run automated tests to improve code coverage. By the end of the book, you will be able to build RESTful web services with Django. What you will learn The best way to build a RESTful Web Service or API with Django and the Django REST Framework Develop complex RESTful APIs from scratch with Django and the Django REST Framework Work with either SQL or NoSQL data sources Design RESTful Web Services based on application requirements Use third-party packages and extensions to perform common tasks Create automated tests for RESTful web services Debug, test, and profile RESTful web

services with Django and the Django REST Framework Who this book is for This book is for Python developers who want to create RESTful web services with Django; you need to have a basic working knowledge of Django but no previous experience with RESTful web services is required.

International Symposium on Advancing Geodesy in a Changing World Jeffrey T. Freymueller 2019-03-12 These proceedings contain 23 papers, which are the peer-reviewed versions of presentations made at the Joint Scientific Assembly of the International Association of Geodesy (IAG) and the International Association of Seismology and Physics of the Earth's Interior (IASPEI). The assembly was held from 30 July to 4 August 2017 in Kobe, Japan. The

scientific assembly included seven symposia organized by IAG, and nine joint symposia, along with additional symposia organized by IASPEI. The IAG symposia were structured according to the four IAG Commissions and the three GGOS Focus Areas, and included reference frames, static and time-variable gravity field, Earth rotation and geodynamics, multi-signal positioning, geodetic remote sensing, and GGOS. The joint symposia included monitoring of the cryosphere, studies of earthquakes, earthquake source processes, and other types of fault slip, geohazard warning systems, deformation of the lithosphere, and seafloor geodesy. Together, the IAG and joint symposia spanned a broad range of work in geodesy and its applications.

*Building Corporate Identity, Image
and Reputation in the Digital Era* T C

Melewar 2021-07-30 Brands –
corporate, products, service – today
are collectively defined by their
customers, deriving from personal
experiences and word of mouth. This
book acts as a forum for examining
current and future trends in
corporate branding, identity, image
and reputation. Recognising the
complexity and plurality at the heart
of the corporate branding discipline,
this book fills a gap in the

literature by posing a number of
original research questions on the
intrinsic nature of corporate
branding ideas from corporate
(external) and organisation
(internal) identity perspectives as
they relate to brand management,
corporate reputation, marketing
communications, social media, smart
technology, experiential and sensory
marketing. It incorporates current
thinking and developments by both
multidisciplinary academics and
practitioners, combining a
comprehensive theoretical foundation
with practical insights. The text
will serve as an important resource
for the marketing, identity and brand
practitioners requiring more than
anecdotal evidence on the structure
and operation of stakeholders
communication in different

geographical areas. It determines current practices and researches in diverse areas, regions and commercial and non-commercial sectors across the world. The book provides scholars, researchers and postgraduate students in business and marketing with a comprehensive treatment of the nature of relationships between companies, brands and stakeholders in different areas and regions of the world.

Understanding a New Presidency in the Age of Trump
Joseph A. Pika
2017-11-10 From the authors of The Politics of the Presidency comes this new supplement examining the unprecedented administration of Donald J. Trump. With their trademark balance between historical context,

the current political environment, and contemporary scholarship on the executive branch, Joseph A. Pika, John Anthony Maltese, and Andrew Rudalevige offer students in American politics a brief but thorough overview of the Trump presidency's first year of office. From the transition to the Russia investigation, Understanding a New Presidency in the Age of Trump grounds the ongoing news cycle in a deeper analysis of the executive branch, encouraging you to draw connections between current events and broader political science concepts. Whether packaged with another CQ Press title or used on its own, Understanding a New Presidency will give you the insight you need.
Pro MySQL NDB Cluster Jesper Wisborg Krogh
2017-11-03 Create and run a

real-time, highly-available, and high-redundancy version of the world's most popular open-source database, MySQL. You will understand the advantages and disadvantages of the MySQL NDB Cluster solution, and when MySQL NDB Cluster is the right choice. Pro MySQL NDB Cluster walks you through the full lifecycle of a MySQL Cluster installation: starting with the installation and initial configuration, moving through online configuration and schema changes, and completing with online upgrades. Along the way, you will learn to monitor your cluster, make decisions about schema design, implement geographic replication, troubleshoot and optimize performance, and much more. This book covers the many programming APIs that are supported by MySQL NDB Cluster. There's also

robust coverage of connecting to MySQL NDB Cluster from Java, SQL, memcached, and even from C++. From any of these languages, you'll be able to connect and store and retrieve data as your applications demand. The book: Covers MySQL NDB Cluster concepts and architecture Takes you through the MySQL NDB Cluster lifecycle from installation to upgrades Guides you through DBA and Developer decisions when working with MySQL NDB Cluster What You'll Learn Understand the shared-nothing architecture behind MySQL NDB Cluster Plan, install, and configure a MySQL NDB Cluster environment Perform everyday tasks such as backing up, restoring, and upgrading Develop applications from Java, memcached, C++, and SQL Troubleshoot and resolve application performance problems

Master enterprise-level features such as the MySQL NDB Cluster Manager Who This Book Is For Database administrators and developers who are looking into deploying MySQL NDB Cluster, or who already have a cluster in production and want to increase their knowledge and ability to handle routine administrative tasks and troubleshooting. The book also is for those developers wanting to employ MySQL NDB Cluster as their chosen storage engine from Java, memcached, and C++ applications. PN-EN 50600-4-3:2017-02/A1 Polski Komitet Normalizacyjny 2019 *Effects of the Business Cycle on Social Indicators in Latin America and the Caribbean* Carlos A. Vegh 2019-04-04 After mediocre growth in 2018 of 0.7 percent. LAC is expected to perform only marginally better in

2019 (growth of 0.9 percent) followed by a much more solid growth of 2.1 percent in 2020. LAC will face both internal and external challenges during 2019. On the domestic front, the recession in Argentina; a slower than expected recovery in Brazil from the 2014-2015 recession, anemic growth in Mexico. and the continued deterioration of Venezuela. present the biggest challenges. On the external front, the sharp drop in net capital inflows to the region since early 2018 and the monetary policy normalization in the United States stand among the greatest perils. Furthermore, the recent increase in poverty in Brazil because of the recession points to the large effects that the business cycle may have on poverty. The core of this report argues that social indicators that

are very sensitive to the business cycle may yield a highly misleading picture of permanent social gains in the region.

Lecture Slides for Programming in C++ (Version 2017-02-24) Michael D. Adams 2017-02-24 This document constitutes a detailed set of lecture slides on programming using the C++ programming language. The topics covered are quite broad, including the history of C++, the C++ language itself, the C++ standard library and various other libraries, and software tools, as

well as numerous other programming-related topics. Coverage of C++ is current with the C++14 standard. Many aspects of the C++ language are covered from introductory to more advanced. This material includes: language basics (objects, types, values, operators, expressions, control-flow constructs, functions, and namespaces), classes, templates (function, class, alias, and variable templates; template specialization; and variadic templates), lambda expressions, inheritance and run-time polymorphism, exceptions (exception safety, RAII, and smart pointers), rvalue references (move semantics and perfect forwarding), concurrency (sequential consistency, atomic memory operations, data races; threads, mutexes, condition variables, promises and futures,

atomics, and fences; happens-before and synchronizes-with relationships; and sequentially-consistent and other memory models). A number of best practices, tips, and idioms regarding the use of the language are also presented. Some aspects of the C++ standard library are covered, including: containers, iterators, and algorithms; the `std::vector` and `std::basic_string` classes; I/O streams; time measurement; and smart pointers. Various general programming-related topics are also presented, such as material on: good programming practices, finite-precision arithmetic, software documentation, software build tools (such as CMake and Make), and version control systems (such as Git). **Traditional Festivals** Christian Roy 2005 This illustrated reference work

covers a wide range of festivals that have sacred origins and are, or have been, part of a folk tradition, a world religion, or a major civilization. * More than 150 A-Z entries on the content and context of each festival, tracing its historical development and geographic variations, from Ashura (Islam) to Whitsuntide (Christianity) * 70 illustrations of festive rituals including photos of Belgium's Binche Carnival, Japan's Cherry Blossom Festival, and the Zulu Reed Dance * Tables of dates for the major feasts in Hinduism, Judaism, Christianity, and Islam, as well as for the Chinese New Year * Calendar graph showing at a glance the relative places of all the festivals discussed in the seasonal cycle of a single year
American Public Opinion toward Israel

Amnon Cavari 2020-12-10 This book examines trends in American public opinion about Israel in over 75 years, from 1944 to 2019. Analyzing data from hundreds of surveys in jargon-free writing, the authors show that public support for Israel has seen a dramatic shift toward increased division between partisan and select demographic groups, elaborating on the implications that this important change may have for the countries' special relationship. Scholars and students of American foreign policy, public opinion, Middle East politics and international relations, as well as policy analysts, policymakers, journalists and anyone interested in American policy toward Israel, will want to read this book. Special Features An Online Appendix including

all surveys used throughout the book. A Roper Center-approved Data Tool that allows readers to create their own figures based on data used in the book:

China Satellite Navigation Conference (CSNC) 2018 Proceedings Jiadong Sun 2018-05-03 These proceedings present selected research papers from CSNC 2018, held during 23rd-25th May in

Harbin, China. The theme of CSNC 2018 is Location, Time of Augmentation. These papers discuss the technologies and applications of the Global Navigation Satellite System (GNSS), and the latest progress made in the China BeiDou System (BDS) especially. They are divided into 12 topics to match the corresponding sessions in CSNC 2018, which broadly covered key topics in GNSS. Readers can learn about the BDS and keep abreast of the latest advances in GNSS techniques and applications.

White Rage Carol Anderson 2016-05-31

A Chicago Review of Books Best

Nonfiction Book of 2016 From the Civil War to our combustible present, acclaimed historian Carol Anderson reframes our continuing conversation about race, chronicling the powerful forces opposed to black progress in America. As Ferguson, Missouri, erupted in August 2014, and media commentators across the ideological spectrum referred to the angry response of African Americans as "black rage," historian Carol Anderson wrote a remarkable op-ed in *The Washington Post* suggesting that this was, instead, "white rage at work. With so much attention on the flames," she argued, "everyone had ignored the kindling." Since 1865 and the passage of the Thirteenth Amendment, every time African Americans have made advances towards full participation in our democracy,

white reaction has fueled a deliberate and relentless rollback of their gains. The end of the Civil War and Reconstruction was greeted with the Black Codes and Jim Crow; the Supreme Court's landmark 1954 Brown v. Board of Education decision was met with the shutting down of public schools throughout the South while taxpayer dollars financed segregated white private schools; the Civil Rights Act of 1964 and Voting Rights Act of 1965 triggered a coded but powerful response, the so-called Southern Strategy and the War on Drugs that disenfranchised millions of African Americans while propelling presidents Nixon and Reagan into the White House, and then the election of America's first black President, led to the expression of white rage that has been as relentless as it has been

brutal. Carefully linking these and other historical flashpoints when social progress for African Americans was countered by deliberate and cleverly crafted opposition, Anderson pulls back the veil that has long covered actions made in the name of protecting democracy, fiscal responsibility, or protection against fraud, rendering visible the long lineage of white rage. Compelling and dramatic in the unimpeachable history it relates, White Rage will add an important new dimension to the national conversation about race in America.

Malaysia Human Rights Report 2017
SUARAM 2018-06-12 Malaysian Human Rights Report 2017 SUARAM's Annual Human Rights Report on Malaysia is widely recognized as the most objective, comprehensive and

dependable source of information on the state of human rights in Malaysia. It documents the human rights violations of all the fundamental liberties as well as the struggles of human rights defenders that take place in Malaysia during the year. In 2017, Malaysia struggled with growing repression as the 14th General Election approached. With the competition for political dominance, freedom of expression became the victim and there was widespread arrest, detention and prosecution for online comments made on social media, and the silencing of print and online media using frivolous justifications. Freedom of religion was another victim. In the short five years since the abolition of the Internal Security Act 1960, the criminal justice system of Malaysia has re-

oriented its policy on tackling crime by the use of detention without trial. With more than 2,000 individuals detained under SOSMA, POCA, POTA and DDA, it is clear that we are seeing the old ISA in a new guise. Beyond the politically motivated human rights violations, corporations and state linked enterprises were also human rights violators. State agencies which are expected to defend and protect the rights and interests of the community, especially the indigenous peoples, instead acted as defenders of the corporate interests. With no justice or remedy in sight, all that the communities could do was to stand and defend their rights and dignity by setting up blockades against the repression...

Practical Real-time Data Processing

and Analytics Shilpi Saxena
2017-09-28 A practical guide to help you tackle different real-time data processing and analytics problems using the best tools for each scenario About This Book Learn about the various challenges in real-time data processing and use the right tools to overcome them This book covers popular tools and frameworks such as Spark, Flink, and Apache Storm to solve all your distributed processing problems A practical guide filled with examples, tips, and tricks to help you perform efficient Big Data processing in real-time Who This Book Is For If you are a Java developer who would like to be equipped with all the tools required to devise an end-to-end practical solution on real-time data streaming, then this book is for you. Basic

knowledge of real-time processing would be helpful, and knowing the fundamentals of Maven, Shell, and Eclipse would be great. What You Will Learn Get an introduction to the established real-time stack Understand the key integration of all the components Get a thorough understanding of the basic building blocks for real-time solution designing Garnish the search and visualization aspects for your real-time solution Get conceptually and practically acquainted with real-time analytics Be well equipped to apply the knowledge and create your own solutions In Detail With the rise of Big Data, there is an increasing need to process large amounts of data continuously, with a shorter turnaround time. Real-time data processing involves continuous input,

processing and output of data, with the condition that the time required for processing is as short as possible. This book covers the majority of the existing and evolving open source technology stack for real-time processing and analytics. You will get to know about all the real-time solution aspects, from the source to the presentation to persistence. Through this practical book, you'll be equipped with a clear understanding of how to solve challenges on your own. We'll cover topics such as how to set up components, basic executions, integrations, advanced use cases, alerts, and monitoring. You'll be exposed to the popular tools used in real-time processing today such as Apache Spark, Apache Flink, and Storm. Finally, you will put your

knowledge to practical use by implementing all of the techniques in the form of a practical, real-world use case. By the end of this book, you will have a solid understanding of all the aspects of real-time data processing and analytics, and will know how to deploy the solutions in production environments in the best possible manner. Style and Approach In this practical guide to real-time analytics, each chapter begins with a basic high-level concept of the topic, followed by a practical, hands-on implementation of each concept, where you can see the working and execution of it. The book is written in a DIY style, with plenty of practical use cases, well-explained code examples, and relevant screenshots and diagrams.

Tools, Techniques, and Strategies for

Teaching in a Real-World Context With Microbiology Davida Smyth 2021-12-02

Inventing the Cloud Century Marcus Oppitz 2017-08-03 This book combines the three dimensions of technology, society and economy to explore the advent of today's cloud ecosystems as successors to older service ecosystems based on networks. Further, it describes the shifting of services to the cloud as a long-term trend that is still progressing rapidly. The book adopts a comprehensive perspective on the key success factors for the technology – compelling business models and ecosystems including private, public and national organizations. The authors explore the evolution of service ecosystems, describe the similarities and differences, and analyze the way they have created and

changed industries. Lastly, based on the current status of cloud computing and related technologies like virtualization, the internet of things, fog computing, big data and analytics, cognitive computing and blockchain, the authors provide a revealing outlook on the possibilities of future technologies, the future of the internet, and the potential impacts on business and society.

Annual Report California. Teachers' Retirement Board 1992

Media Literacy for Citizenship

Kirsten Kozolanka 2018-08-22 Offering a critical perspective, Media Literacy for Citizenship emphasizes the ability to analyze media messages as a fundamental component of engaged citizenship. The ten chapters of this text are divided into two sections:

the first six chapters explore the landscape of the media today, and each of the final four chapters examines how the media presents specific issues, all of which are of vital importance to civil society. Each chapter forms a mini-lesson and encompasses three core elements: an essay on a subject area important to critical media literacy; a list of case examples that can be used for assignments; and a list of key terms common to all chapters and cases. The diverse topics of study and the rich pedagogy make this book a perfect resource for courses in communications, journalism, media studies, and education.

CompTIA CySA+ Practice Tests Mike Chapple 2018-02-28 1,000 practice questions for smart CompTIA CySA+ preparation CompTIA CySA+ Practice Tests provides invaluable preparation for the Cybersecurity Analyst exam CS0-001. With 1,000 questions covering 100% of the exam objectives, this book offers a multitude of opportunities for the savvy CySA+ candidate. Prepare more efficiently by working through questions before you begin studying, to find out what you already know and focus study time only on what you don't. Test yourself periodically to gauge your progress along the way, and finish up with a 'dry-run' of the exam to avoid surprises on the big day. These questions are organized into four

full-length tests, plus two bonus practice exams that show you what to expect and help you develop your personal test-taking strategy. Each question includes full explanations to help you understand the reasoning and approach, and reduces the chance of making the same error twice. The CySA+ exam tests your knowledge and skills related to threat management, vulnerability management, cyber incident response, and security architecture and tools. You may think you're prepared, but are you absolutely positive? This book gives you an idea of how you are likely to perform on the actual exam while there's still time to review. Test your understanding of all CySA+ exam domains Pinpoint weak areas in need of review Assess your level of knowledge before planning your study

time Learn what to expect on exam day The CompTIA CySA+ certification validates your skill set in the cybersecurity arena. As security becomes more and more critical, the demand for qualified professionals will only rise. CompTIA CySA+ Practice Tests is an invaluable tool for the comprehensive Cybersecurity Analyst preparation that helps you earn that career-making certification.

Love makes a promise Jeremy Hebel
A review of the application of the FAO ecosystem approach to fisheries (EAF) management within the areas beyond national jurisdiction (ABNJ)
Fletcher, W.J. 2020-10-14 The publication documents the results of the review of the level of implementation of the FAO Ecosystem Approach to Fisheries (EAF) by the

fisheries management bodies in each of the different ABNJ regions. The review was designed to help identify future activities by the ABNJ Deep Sea Project to address gaps and capacity development and make recommendations to strengthen EAF among deep-sea fisheries management bodies and/or their members. The information to complete the EAF reviews was largely obtained from web-based materials. To assist with the accuracy of these desktop assessments, following initial drafting of each EAF background report and associated EAF assessment, both documents were sent to the respective RFMO secretariats. Comments and/or suggestions provided by the secretariats were then addressed with revised versions of the background reports and review

assessments generated. Based on these revised reports, the comparative analyses were finalized and a full report was drafted. Being a desk-top assessment of the level of implementation of the EAF approach by each of the RFMO management bodies, the study had a number of caveats including only being able to measure systems and processes, not outcomes. A more complete assessment of EAF adoption and especially the outcomes would require direct involvement of the various stakeholders, including all relevant management, compliance and scientific bodies, contracting parties (CP), non-contracting parties (NCP), vessel owners, crews, non-governmental organizations (NGOs), etc.

Smart Technology Francisco Torres Guerrero 2018-03-19 This book

constitutes the refereed proceedings of the First International Conference on Smart Technology, MTYMEX 2017, held in Monterrey, Mexico, in May 2017. The 19 full papers were selected from 30 submissions and cover smart technologies for education, health, robotics, internet of things, virtual augmented and mixed reality technologies, artificial intelligence, gaming, software development, and digital arts.

A Trader's Guide to Financial Astrology Larry Pasavento 2015-01-06
Look to the stars for a whole new approach to market cycle forecasting
A Trader's Guide to Financial Astrology is the definitive guide to trading market cycles based on astrological data. Written by a highly-respected technical analyst,

this book makes the connection between the movements of planets and the volatility of the market. Readers can draw upon one hundred years of historical data as they learn how to spot correlations from the past, and refer to planetary and lunar data for the next five years as they shape their own strategy. The book covers the principles of astrological forecasting as applied to the financial markets, explaining what to watch for and how to interpret planetary and lunar activity, plus expert insight on everyday practical application. A study by the Federal Reserve Bank of Atlanta determined that the U.S. stock markets tend to be negatively affected by geomagnetic storms, and the Royal Bank of Scotland demonstrated that a trading system based on the phases of the

moon would have outperformed the market. A Trader's Guide to Financial Astrology shows traders how to tap into the planetary forces that influence market activity. Readers will: Learn how planetary and lunar movements relate to the financial markets Draw upon 100 years of historic correlations and five years of forecast data Forecast long-term and short-term activity based on planetary relationships and lunar movement Enter the markets at key turning points, using price patterns and other tools When integrated with technical trading patterns, astrology can be an effective way of shifting perspective and approaching the market differently. For traders who have always wanted to know what to do when Mercury is in retrograde or the moon is new, A Trader's Guide to

Financial Astrology provides information and insight from a leading market educator.
G Magazine 2017/02 2017-01-10 #1 Best Seller - Professional Photoshop magazine ! - Designed for people, who are looking for a job, and to apply for a position need a Photoshop knowledge. - Beginner, Intermediate, Advanced, Professional level book. - Based on personal working experience in editorial offices and graphic design studios. - 5 COLOR glamour photos, with Photoshop tutorials. - 01.Grid/Gridline, 02.Grayscale, 03.Transform 01, 04.Pinch Filter, 05.Path 01
Political Power in America Anthony R. DiMaggio 2019-12-01 Introduction to American politics that provides a critical examination of both political institutions and political

behavior. Analyzing major political institutions such as Congress, the courts, the presidency, and the media, this book chronicles how the interests of affluent Americans—particularly business, professional, and corporate interests—dominate over those of “average” citizens. Anthony R. DiMaggio examines American political behavior, as it relates to lobbying, citizen activism, media consumption, and voting, to demonstrate how the public is often misinformed and manipulated regarding major political and economic matters. However, record public distrust of the government and the increasing popularity of mass protests suggest that most Americans are deeply unhappy with the political status quo, and many are willing to fight for change. Political Power in

America details this interplay between a political system dominated by the affluent few and the rise of mass political distrust and protest. It offers information and tools needed to better understand the democratic deficit in American politics, while providing opportunities for discussing what we might do to address the mounting crisis of declining democracy. “An original and refreshing introductory text on the United States political system. The originality, coupled with an accessibility of critical concepts, makes this book truly one of a kind.” – Mark Major, author of *The Unilateral Presidency and the News Media: The Politics of Framing Executive Power*

A President's Daily Brief: Year 1
Micah Fisher-Kirshner

What was daily life under the Trump presidency really like?

An accessible ebook with short, thematic entries showing the corruption of the Trump presidency, *A President's Daily Brief, Year 1: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency* is the first in Micah Fisher-Kirshner's series, representing the inaugural year of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most

corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims.

This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and government or simply want to read about the most notorious presidency in history.
