2020-02-14 Egyptian firms  
face significant access to  
finance constraints. Using  
panel data, this paper  
examines the reasons why  
many Egyptian firms do not  
use formal banking services.  
Using data on the location  
of firms and bank branches,  
it also investigates whether  
access to finance  
constraints are linked to the  
crowding-out effect of bank  
investments in government  
debt.

Covid-19 Memorabilia Jack  
LIU 2020-10-09 This book  
has two aims, first of which  
is to try to trace and recode  
all the important world-wide  
incident & accident that  
related to outbreak and  
pandemic of Covid-19, from  
Oct 1, 2019 to Sep 30 2020,  
with emphasis on China and  
United State; second of  
which is to render reader  
some clue that helps  
answering very important  
questions. Those questions  
are: where is new corona  
virus come from? Is it  
developed naturally from  
some bat in some mountain  
or man-made from some  
lab? How easy is the virus  
to invade human cells?  
When and where and how  
the viruses enter into  
human society? How do  
them mutated and getting  
more contagious? Are  
mutated virus more vicious  
or getting friendly and  
benign to human body? How  
the epidemic spread to the  
world and cause pandemic?  
How the pandemic influence  
the economy, domestic and

global? Is globalization still has future? How will pandemic influence China-U.S. relationship? Is the Pandemic changing the international political order? You won't get all the answer here, since this book is about First Wave only.

**The Meritocracy Trap**

Daniel Markovits  
2019-09-10 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort. Even as the country divides itself at

every turn, the meritocratic ideal - that social and economic rewards should follow achievement rather than breeding - reigns supreme. Both Democrats and Republicans insistently repeat meritocratic notions. Meritocracy cuts to the heart of who we are. It sustains the American dream. But what if, both up and down the social ladder, meritocracy is a sham? Today, meritocracy has become exactly what it was conceived to resist: a mechanism for the concentration and dynastic transmission of wealth and privilege across generations. Upward mobility has become a fantasy, and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite. At the same time, meritocracy now ensnares even those who manage to claw their way to the top, requiring rich adults to work with crushing

intensity, exploiting their expensive educations in order to extract a return. All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes. This is the radical argument that Daniel Markovits prosecutes with rare force. Markovits is well placed to expose the sham of meritocracy. Having spent his life at elite universities, he knows from the inside the corrosive system we are trapped within. Markovits also knows that, if we understand that meritocratic inequality produces near-universal harm, we can cure it. When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine, it also illuminates the first steps outward, towards a new world that might once again afford dignity and prosperity to the American people.

*Freedom Fighters*  
(2018-2019) #10 Robert

2019-10

Venditti 2019-10-23 Uncle Sam is mad as hell, and he's not going to take it anymore! As revolution takes the nation by storm, the spirit of America is running through Uncle Sam's veins as strongly as it ever has, and he's going to use that boost to take on the whole Nazi army! But is this power and the aid of the Freedom Fighters enough to liberate his great nation and end the Nazi regime for good?

**Blade Runner 2019 #10**

Michael Green 2020-09-23  
Eight years ago, Blade Runner Aahna Ashina, 'Ash', fled to the Off-world mining colony with Cleo, the daughter of business tycoon Alexander Selwyn, when she learned of Selwyn's plan to sell his own daughter to Eldon Tyrell for genetic experimentation. Ash helped Cleo and her surrogate Replicant mother,

6/9

Isobel, escape to the off-world colony of Arcadia. She has now returned to Los Angeles to hunt down Selwyn once and for all. With the help of her old boss, Wojciech, Ash visited the ruins of the Tyrell Corporation and discovered a deranged scientist called Fost, living and working in the ruins on a secret project designated: Project Isobel. With Fost's help, Ash accessed the Tyrell mainframe and discovered the location of Alexander Selwyn. Meanwhile, Selwyn, alerted to Ash's investigation, has activated a new version of the Blade Runner, Hythe, whom Ash killed back on the waystation of Ramanuja.

### **Applied Incident**

**Response** Steve Anson

2020-01-13 Incident

response is critical for the active defense of any network, and incident responders need up-to-date, immediately applicable

techniques with which to engage the adversary. Applied Incident Response details effective ways to respond to advanced attacks against local and remote network resources, providing proven response techniques and a framework through which to apply them. As a starting point for new incident handlers, or as a technical reference for hardened IR veterans, this book details the latest techniques for responding to threats against your network, including: Preparing your environment for effective incident response Leveraging MITRE ATT&CK and threat intelligence for active network defense Local and remote triage of systems using PowerShell, WMIC, and open-source tools Acquiring RAM and disk images locally and remotely Analyzing RAM with Volatility and Rekall Deep-dive forensic analysis of system drives using open-source or commercial tools

**The Hype Machine** Sinan Aral 2020-09-15  
A landmark insider's tour of how social media affects our decision-making and shapes our world in ways both useful and dangerous, with critical insights into the social media trends of the 2020 election and beyond  
"The book might be described as prophetic. . . . At least two

of Aral's three predictions have come to fruition."—New York NAMED ONE OF THE BEST BOOKS OF THE YEAR BY WIRED • LONGLISTED FOR THE PORCHLIGHT BUSINESS BOOK AWARD  
Social media connected the world—and gave rise to fake news and increasing polarization. It is paramount, MIT professor Sinan Aral says, that we recognize the outsize effect social media has on us—on our politics, our economy, and even our personal health—in order to steer today's social technology toward its great promise while avoiding the ways it can pull us apart. Drawing on decades of his own research and business experience, Aral goes under the hood of the most powerful social networks to tackle the critical question of just how much social media actually shapes our choices, for better or worse. He shows how the tech behind social media offers

the same set of behavior influencing levers to everyone who hopes to change the way we think and act—from Russian hackers to brand marketers—which is why its consequences affect everything from elections to business, dating to health. Along the way, he covers a wide array of topics, including how network effects fuel Twitter’s and Facebook’s massive growth, the neuroscience of how

social media affects our brains, the real consequences of fake news, the power of social ratings, and the impact of social media on our kids. In mapping out strategies for being more thoughtful consumers of social media, *The Hype Machine* offers the definitive guide to understanding and harnessing for good the technology that has redefined our world overnight.
