

2020/01

Right here, we have countless books **2020/01** and collections to check out. We additionally meet the expense of variant types and also type of the books to browse. The welcome book, fiction, history, novel, scientific research, as without difficulty as various supplementary sorts of books are readily easily reached here.

As this 2020/01, it ends stirring monster one of the favored books 2020/01 collections that we have. This is why you remain in the best website to look the incredible book to have.

Pandas in Action Boris Paskhaver
2021-09-28 Pandas has rapidly become one of Python's most popular data analysis libraries. With pandas you can efficiently sort, analyze, filter and munge almost any type of data. Pandas in Action shows you how to master this versatile tool and take the next steps in your data science career.

Pandas has rapidly become one of Python's most popular data analysis libraries. With pandas you can efficiently sort, analyze, filter and munge almost any type of data. Pandas in Action shows you how to master this versatile tool and take the next steps in your data science career. Pandas in Action makes it easy to dive into Python-based data analysis. You'll learn to use pandas to

automate repetitive spreadsheet functionality and derive insight from data by sorting columns, filtering data subsets, and creating multi-leveled indices. Each chapter is a self-contained tutorial, letting you dip in when you need to troubleshoot tricky problems. Best of all, you won't be learning from sterile or randomly created data. You'll start with a variety of datasets that are big, small, incomplete, broken, and messy and learn how to clean and format them for proper analysis. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

Complexity in Economic and Social Systems
Stanisław Drożdż 2021-05-11 There is no term that better describes the essential features of human society than complexity. On various levels, from the decision-making processes of individuals, through to the interactions between individuals leading to the spontaneous formation of groups and

social hierarchies, up to the collective, herding processes that reshape whole societies, all these features share the property of irreducibility, i.e., they require a holistic, multi-level approach formed by researchers from different disciplines. This Special Issue aims to collect research studies that, by exploiting the latest advances in physics, economics, complex networks, and data science, make a step towards understanding these economic and social systems. The majority of submissions are devoted to financial market analysis and modeling, including the stock and cryptocurrency markets in the COVID-19 pandemic, systemic risk quantification and control, wealth condensation, the innovation-related performance of companies, and more. Looking more at societies, there are papers that deal with regional development, land speculation, and the-fake news-fighting strategies, the issues

Published articles will be useful for professionals and for students and academic staff for the mentioned areas of engineering.

EIB Working Papers 2020/01 - How Can Favourable Financing Improve Energy Efficiency Investments? Pauline Ravillard
2020 Financial instruments and technical assistance are effective in increasing investments in energy efficiency. When these favourable conditions are combined, the probability that firms invest in energy efficiency increases by more than a third. These results provide important insights into measures to increase energy efficiency investments, and how to optimally design them, which is key for EU policy-makers and

lending institutions.

1970 Census Tract Coding Guide Detroit Regional Census Advisory Committee 1973
MLI Made Easy Kuldeep Sharma
2021-04-22 The Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting (MLI) provides an innovative approach to enable countries to swiftly modify their bilateral tax treaties in order to implement measures developed in the course of the Base Erosion and Profit Shifting (BEPS) Project. MLI, the first successfully concluded multilateral tax treaty, provides jurisdictions with the tools they need to ensure that profits are taxed where economic activities generating the profits are performed, while

at the same time giving businesses greater certainty. MLI Made Easy makes it easier to get a complete grasp of this swift but complex modification process of tax treaties. This first and only self-contained book offers an unmatched article-by-article discussion of the MLI with an abundance of practical examples, diagrams, and flowcharts to make the information easier to understand and apply. Focusing on measures to combat tax evasion and abuse of tax treaties arising due to artificial avoidance of a permanent establishment status, hybrid mismatch arrangements, and other aspects of taxation, the book includes an in-depth discussion of the following and more: how specific gaps in existing bilateral tax treaties are addressed by the MLI; positions taken by selected jurisdictions and their impact on treaties; compatibility clauses, notification clauses, opting-in mechanisms, alternative provisions, and

reservations; experiences in the course of implementation of the MLI; misconceptions and lingering doubts in respect of various substantive and procedural provisions of the MLI; interaction between the principal purpose test and simplified limitation on benefits; improving dispute resolution; and meaning of the phrases 'on or after', 'other taxes', and interpretational issues in entry into effect provisions. Adopted by a majority of jurisdictions worldwide, MLI preserves the tax sovereignty of its Parties and has been successful in overcoming barriers to the conclusion of a worldwide multilateral tax treaty. Because this easy-to-use book immensely facilitates understanding and application of the treaty measures developed in the course of the BEPS Project, it will be of immeasurable use to practitioners and other professionals engaging in international taxation, as well as to taxation authorities and interested

academics in any part of the world.

Mergent Bond Record 2004

Imperfect Union Steve Inskeep

2020-01-14 Steve Inskeep tells the riveting story of John and Jessie Frémont, the husband and wife team who in the 1800s were instrumental in the westward expansion of the United States, and thus became America's first great political couple John C. Frémont, one of the United States's leading explorers of the nineteenth century, was relatively unknown in 1842, when he commanded the first of his expeditions to the uncharted West. But in only a few years, he was one of the most acclaimed people of the age – known as a wilderness explorer, bestselling writer, gallant army officer, and latter-day conquistador, who in 1846 began the United States's takeover of California from Mexico. He was not even 40 years old when Americans began naming mountains and towns after him. He had perfect timing,

exploring the West just as it captured the nation's attention. But the most important factor in his fame may have been the person who made it all possible: his wife, Jessie Benton Frémont. Jessie, the daughter of a United States senator who was deeply involved in the West, provided her husband with entrée to the highest levels of government and media, and his career reached new heights only a few months after their elopement. During a time when women were allowed to make few choices for themselves, Jessie – who herself aspired to roles in exploration and politics – threw her skill and passion into promoting her husband. She worked to carefully edit and publicize his accounts of his travels, attracted talented young men to his circle, and lashed out at his enemies. She became her husband's political adviser, as well as a power player in her own right. In 1856, the famous couple strategized as John became

the first-ever presidential nominee of the newly established Republican Party. With rare detail and in consummate style, Steve Inskeep tells the story of a couple whose joint ambitions and talents intertwined with those of the nascent United States itself. Taking advantage of expanding news media, aided by an increasingly literate public, the two linked their names to the three great national movements of the time—westward settlement, women's rights, and opposition to slavery. Together, John and Jessie Frémont took parts in events that defined the country and gave rise to a new, more global America. Theirs is a surprisingly modern tale of ambition and fame; they lived in a time of social and technological disruption and divisive politics that foreshadowed our own. In *Imperfect Union*, as Inskeep navigates these deeply transformative years through Jessie and John's own union, he reveals how the

Frémonts' adventures amount to nothing less than a tour of the early American soul. *Learning SQL* Alan Beaulieu 2020-03-04 As data floods into your company, you need to put it to work right away—and SQL is the best tool for the job. With the latest edition of this introductory guide, author Alan Beaulieu helps developers get up to speed with SQL fundamentals for writing database applications, performing administrative tasks, and generating reports. You'll find new chapters on SQL and big data, analytic functions, and working with very large databases. Each chapter presents a self-contained lesson on a key SQL concept or technique using numerous illustrations and annotated examples. Exercises let you practice the skills you learn. Knowledge of SQL is a must for interacting with data. With *Learning SQL*, you'll quickly discover how to put the power and flexibility of this language to work. Move quickly through SQL basics

and several advanced features Use SQL data statements to generate, manipulate, and retrieve data Create database objects, such as tables, indexes, and constraints with SQL schema statements Learn how datasets interact with queries; understand the importance of subqueries Convert and manipulate data with SQL's built-in functions and use conditional logic in data statements *Mastering Spark with R* Javier Luraschi 2019-10-07 If you're like most R users, you have deep knowledge and love for statistics. But as your organization continues to collect huge amounts of data, adding tools such as Apache Spark makes a lot of sense. With this practical book, data scientists and professionals working with large-scale data applications will learn how to use Spark from R to tackle big data and big compute problems. Authors Javier Luraschi, Kevin Kuo, and Edgar Ruiz show you how to use R with Spark to solve different data analysis

Consolidation des comptes dans leur programme (Master CCA, par exemple) ainsi qu'aux étudiants des Ecoles supérieures de gestion et de commerce. Cet ouvrage a pour ambition de traiter toutes les difficultés liées à la Consolidation des comptes dans une optique méthodologique, en proposant notamment des tableaux d'analyse et des modèles de résolution. Son objet est de présenter de manière pédagogique les règles et les méthodes applicables aux comptes consolidés des groupes dans le cadre du règlement ANC 2020-01 et des normes comptables internationales actuellement en vigueur dans l'Union européenne. La structure de ce manuel a été choisie pour aborder l'étude de la consolidation des comptes de manière méthodique, progressive et approfondie. Le format qui a été adopté par l'auteur permet de présenter la mise en œuvre d'un système comptable en « double partie

double » de manière synoptique. La consolidation des comptes nécessite en effet la mise en place d'un système comptable en « double partie double », c'est-à-dire un système dans lequel les comptes de gestion (charges et produits) sont retraités conjointement avec le compte de bilan « Résultat » correspondant (le résultat étant soit celui de la société mère, soit celui d'une autre entité intégrée). De nombreux exemples, auxquels s'ajoutent 51 applications corrigées et 36 études de cas corrigées illustrent les différentes parties de ce manuel. Ils sont traités dans le cadre de la réglementation française (règlement ANC 2020-01, code de commerce et règlement ANC 2014-03) et dans le cadre des normes IFRS adoptées et actives au sein de l'Europe. Dans cet ouvrage, l'étude comparative entre le règlement ANC 2020-01 et les normes IFRS est systématique : - pour la détermination du

périmètre et des méthodes de consolidation ; - pour les retraitements de pré-consolidation ; - pour les retraitements de consolidation proprement dite ; - pour la présentation et l'analyse des états financiers. Les deux parties « Normes internationales » et « Comptes de groupe » du programme de l'UE 4 « Comptabilité et audit » du DSCG représentent désormais plus de la moitié des points de l'épreuve. C'est pourquoi nous publions les trois livres numériques complémentaires suivants, disponibles sur Google Play livres : - Comptabilité approfondie - Manuel et 150 applications corrigées - Annales de Consolidation des comptes au DSCG et au DESCF de 1995 à 2020 (Règlement ANC 2020-01 et Normes IFRS) - 50 cas corrigés de Consolidation des comptes (Règlement ANC 2020-01 et Normes IFRS) SOMMAIRE Titre 1. American Dirt Jeanine Cummins 2020
OPRAH'S BOOK CLUB PICK "Extraordinary." -
-Stephen King "This book is not simply the
great American novel; it's the great novel
oflas Americas. It's the great world novel!
This is the international story of our times.
Masterful." --Sandra Cisneros También de

este lado hay sueños. On this side, too, there
are dreams. Lydia Quixano Pérez lives in the
Mexican city of Acapulco. She runs a
bookstore. She has a son, Luca, the love of
her life, and a wonderful husband who is a
journalist. And while there are cracks
beginning to show in Acapulco because of
the drug cartels, her life is, by and large,
fairly comfortable. Even though she knows
they'll never sell, Lydia stocks some of her
all-time favorite books in her store. And then
one day a man enters the shop to browse
and comes up to the register with a few
books he would like to buy--two of them her
favorites. Javier is erudite. He is charming.
And, unbeknownst to Lydia, he is the jefe of
the newest drug cartel that has gruesomely
taken over the city. When Lydia's husband's
tell-all profile of Javier is published, none of
their lives will ever be the same. Forced to
flee, Lydia and eight-year-old Luca soon find
themselves miles and worlds away from

their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride the trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reach the north, Lydia soon sees that everyone is running from something. But what exactly are they running to? American Dirt will leave readers utterly changed. It is a literary achievement filled with poignancy, drama, and humanity on every page. It is one of the most important books for our times. Already being hailed as "a Grapes of Wrath for our times" and "a new American classic," Jeanine Cummins's American Dirt is a rare exploration into the inner hearts of people willing to sacrifice everything for a glimmer of hope.

Iranian-Saudi Rivalry since 1979 Talal Mohammad 2022-08-11 The fraught relationship between Saudi Arabia and Iran

is usually attributed to sectarian differences, even by the states' own elites. However, this book shows that in their official speeches, newspaper editorials and Friday sermons, these elites use sectarian and nationalist references and tropes to denigrate each other and promote themselves in the eyes of their respective constituencies in the region. Talal Mohammad, who is fluent in both Arabic and Persian, examines Saudi-Iranian rivalry using discourse analysis of these religious, political and journalistic sources. Tracing what has been produced since 1979 in parallel, he argues for a consistent pattern of mutual misrepresentation, whereby each frames its counterpart as the 'Other' to which a specific political agenda can be justified and advanced. The book covers key events including the Iranian Revolution, the invasion of Kuwait in 1990, the Taliban war, the fall of Saddam, the Arab Spring, the rise

of Mohammed bin Salman, and the war on ISIS. While until now Saudi-Iranian rivalry has been understood in primarily sectarian or geopolitical terms, the author argues here that the discursive othering serves as a propagandist function that supports more fundamental political and geopolitical

considerations.

Creating a Geriatric Emergency

Department John Schumacher 2021-12-31

An essential, experience-based, practical guide for anyone looking to improve the care of older patients in the emergency department.
