vantage point from which to practise her other calling: as an unofficial shrink. For years, she has supported her God-haunted mother and her recovering addict brother. They have both stabilized for the moment, but then her old mentor, Sylvia Liller, makes a proposal. Sylvia has become famous for her prescient podcast, Hell and High Water, and wants to hire Lizzie to answer the mail she receives: from left-wingers worried about climate change and right wingers worried about the decline of western civilization. As she dives into this polarized world, she begins to wonder what it means to keep tending your own garden once you've seen the flames beyond its walls. When her brother becomes a father and Sylvia a recluse, Lizzie is forced to acknowledge the limits of what she can do. But if she can't save others, then what, or who, might save her? And all the while the voices of the city keep

floating in--funny, disturbing, and increasingly mad.

Interior Chinatown Charles Yu  
2020-01-28 NEW YORK TIMES  
BESTSELLER • NATIONAL  
BOOK AWARD WINNER •

From the infinitely inventive author of *How to Live Safely in a Science Fictional Universe*, a deeply personal novel about race, pop culture, immigration, assimilation, and escaping the roles we are forced to play. "One of the funniest books of the year.... A delicious, ambitious Hollywood satire." —The Washington Post Willis Wu doesn't perceive himself as the protagonist in his own life: he's merely Generic Asian Man. Sometimes he gets to be Background Oriental Making a Weird Face or even Disgraced Son, but always he is relegated to a prop. Yet every day, he leaves

his tiny room in a Chinatown SRO and enters the Golden Palace restaurant, where *Black and White*, a procedural cop show, is in perpetual production. He's a bit player here, too, but he dreams of being Kung Fu Guy—the most respected role that anyone who looks like him can attain. Or is it? After stumbling into the spotlight, Willis finds himself launched into a wider world than he's ever known, discovering not only the secret history of Chinatown, but the buried legacy of his own family. Infinitely inventive and deeply personal, exploring the themes of pop culture, assimilation, and immigration—*Interior Chinatown* is Charles Yu's most moving, daring, and masterful novel yet.

**Foundations of Health Information Management - E-Book** Nadinia Davis 2019-10-23  
Foundations of Health Information Management, 5th

Edition is an absolute must for any student beginning a career in HIM. By focusing on healthcare delivery systems, electronic health records, and the processing, maintenance, and analysis of health information, this engaging, easy-to-understand text presents a realistic and practical view of technology and trends in healthcare. It readies you for the role of a Registered Health Information Technician, who not only maintains and secures accurate health documentation, but serves as a healthcare analyst who translates data into useful, quality information that can control costs and further research. The fifth edition follows the CAHIIM 2018 HIM Associate Degree curriculum competencies, preparing you for the RHIT credentialing exam. EHR samples, practice exercises, and new Bloom's-level Competency Milestone features help ensure mastery of all competencies. Clear

writing style and easy reading level make reading and studying more time-efficient, and are ideal for 2-year associate degree HIM programs and career schools. Chapter learning objectives are tied to the CAHIIM curriculum competencies to allow instructors to teach to the test ? and prepare you for success on the credentialing exam. Professional Profile boxes highlight key HIM professionals within chapter discussions. SimChart and SimChart for the Medical Office EHR samples demonstrate electronic medical records in use. Career Tip boxes instruct you on a course of study and work experience required for the position. Chapter summaries and reviews allow for easy review of each chapter's main concepts. Full-color design and illustrations make content more appealing and easier to learn. Competency Check-In exercises at the end of every main section in each chapter encourage you to review

and apply key concepts.

UPDATED! Content organized to follow CAHIIM 2018 HIM

Associate Degree curriculum competencies, allowing you to study content that matches your credentialing exam. NEW!

Updated material fully addresses the newest curriculum competencies with the most contemporary picture of the

health care landscape and job

market. NEW! Cardinal focus on electronic health record processes

in both ambulatory and acute care settings with new screens

and images. UPDATED! Revised Statistics and Data Analytics

chapter reinforces the role of the HIM professional as a data analyst,

and includes introductory

material on research

methodologies. NEW! RHIT

review question engine with

custom exam and timer

functionalities so you can study

for the RHIT exam by category,

or create timed mock exams.

EXPANDED! Additional

Gorgeous portraits accompany biographies of such fierce but forgotten women as Yankton Dakota Sioux writer and advocate Zitkála-Šá, Mary Eliza Church Terrell, who cofounded the National Association of Colored Women (NACW), and Mabel Ping-Hua Lee, who, at just sixteen years old, helped lead the biggest parade in history to promote the cause of suffrage. **FINISH THE FIGHT** will fit alongside important collections that tell the full story of America's fiercest women. Perfect for fans of **GOOD NIGHT STORIES FOR REBEL GIRLS** and **BAD GIRLS THROUGHOUT HISTORY**. *Golden Gates* Conor Dougherty 2020-02-18 A Time 100 Must-Read Book of 2020 • A New York Times Book Review Editors' Choice • California Book Award Silver Medal in Nonfiction • Finalist for The New York Public Library Helen Bernstein Book Award for

Excellence in Journalism • Named a top 30 must-read Book of 2020 by the New York Post • Named one of the 10 Best Business Books of 2020 by Fortune • Named A Must-Read Book of 2020 by Apartment Therapy • Runner-Up General Nonfiction: San Francisco Book Festival • A Planetizen Top Urban Planning Book of 2020 • Shortlisted for the Goddard Riverside Stephan Russo Book Prize for Social Justice “Tells the story of housing in all its complexity.” —NPR Spacious and affordable homes used to be the hallmark of American prosperity. Today, however, punishing rents and the increasingly prohibitive cost of ownership have turned housing into the foremost symbol of inequality and an economy gone wrong. Nowhere is this more visible than in the San Francisco Bay Area, where fleets of private buses ferry software engineers past the tarp-and-plywood shanties of the

homeless. The adage that California is a glimpse of the nation's future has become a cautionary tale. With propulsive storytelling and ground-level reporting, New York Times journalist Conor Dougherty chronicles America's housing crisis from its West Coast epicenter, peeling back the decades of history and economic forces that brought us here and taking readers inside the activist movements that have risen in tandem with housing costs.

My Autobiography of Carson

McCullers Jenn Shapland

2021-02-25 FINALIST FOR THE NATIONAL BOOK AWARD

Longlisted for the Andrew Carnegie Medal for Excellence in Non-fiction How do you tell the real story of someone misremembered - an icon and idol - alongside your own? Jenn Shapland's celebrated debut is both question and answer: an immersive, surprising exploration of one of America's

most beloved writers, alongside a genre-defying examination of identity, queerness, memory, obsession, and love. Shapland is a graduate student when she first uncovers letters written to Carson McCullers by a woman named Annemarie. Though Shapland recognizes herself in the letters, which are intimate and unabashed in their feelings, she does not see McCullers as history has portrayed her. Her curiosity gives way to fixation, not just with this newly discovered side of McCullers's life, but with how we tell queer love stories. Why, Shapland asks, are the stories of women paved over by others' narratives? What happens when constant revision is required of queer women trying to navigate and self-actualize in straight spaces? And what might the tracing of McCullers's life?her history, her secrets, her legacy?reveal to Shapland about herself? In smart, illuminating prose, Shapland

learning and developing intuition into today's most popular machine learning methods. This book serves as a practitioner's guide to the machine learning process and is meant to help the reader learn to apply the machine learning stack within R, which includes using various R packages such as glmnet, h2o, ranger, xgboost, keras, and others to effectively model and gain insight from their data. The book favors a hands-on approach, providing an intuitive understanding of machine learning concepts through concrete examples and just a little bit of theory. Throughout this book, the reader will be exposed to the entire machine learning process including feature engineering, resampling, hyperparameter tuning, model evaluation, and interpretation. The reader will be exposed to powerful algorithms such as regularized regression, random forests, gradient boosting

machines, deep learning, generalized low rank models, and more! By favoring a hands-on approach and using real word data, the reader will gain an intuitive understanding of the architectures and engines that drive these algorithms and packages, understand when and how to tune the various hyperparameters, and be able to interpret model results. By the end of this book, the reader should have a firm grasp of R's machine learning stack and be able to implement a systematic approach for producing high quality modeling results.

Features: · Offers a practical and applied introduction to the most popular machine learning methods. · Topics covered include feature engineering, resampling, deep learning and more. · Uses a hands-on approach and real world data.

an interdependent discipline. It involves the latest burning issues ranging from machine learning, cloud computing, optimisations, modelling techniques, Internet of Things, data analytics, and Smart Grids among others, that are all new fields. It is an applied and multi-disciplinary subject with a focus on Specific, Measurable, Achievable, Realistic & Timely system operations combined with Machine intelligence & Real-Time computing. It is not possible for any one person to comprehensively cover all aspects relevant to SMART Computing in a limited-extent work. Therefore, these conference proceedings address various issues through the deliberations by distinguished Professors and researchers. The SMARTCOM 2020 proceedings contain tracks dedicated to different areas of smart technologies such as Smart System and Future Internet, Machine Intelligence and Data

Science, Real-Time and VLSI Systems, Communication and Automation Systems. The proceedings can be used as an advanced reference for research and for courses in smart technologies taught at graduate level.

*Dark Towers* David Enrich  
2020-02-25 #1 WALL STREET  
JOURNAL BESTSELLER \*  
NEW YORK TIMES  
BESTSELLER New York Times  
finance editor David Enrich's explosive exposé of the most scandalous bank in the world, revealing its shadowy ties to Donald Trump, Putin's Russia, and Nazi Germany “A jaw-dropping financial thriller”  
—Philadelphia Inquirer On a rainy Sunday in 2014, a senior executive at Deutsche Bank was found hanging in his London apartment. Bill Broeksmit had helped build the 150-year-old financial institution into a global colossus, and his sudden death was a mystery, made more so by

the bank's efforts to deter investigation. Broeksmit, it turned out, was a man who knew too much. In *Dark Towers*, award-winning journalist David Enrich reveals the truth about Deutsche Bank and its epic path of devastation. Tracing the bank's history back to its propping up of a default-prone American developer in the 1880s, helping the Nazis build Auschwitz, and wooing Eastern Bloc authoritarians, he shows how in the 1990s, via a succession of hard-charging executives, Deutsche made a fateful decision to pursue Wall Street riches, often at the expense of ethics and the law. Soon, the bank was manipulating markets, violating international sanctions to aid terrorist regimes, scamming investors, defrauding regulators, and laundering money for Russian oligarchs. Ever desperate for an American foothold, Deutsche also started doing business with a self-promoting

real estate magnate nearly every other bank in the world deemed too dangerous to touch: Donald Trump. Over the next twenty years, Deutsche executives loaned billions to Trump, the Kushner family, and an array of scandal-tarred clients, including convicted sex offender Jeffrey Epstein. *Dark Towers* is the never-before-told saga of how Deutsche Bank became the global face of financial recklessness and criminality—the corporate equivalent of a weapon of mass destruction. It is also the story of a man who was consumed by fear of what he'd seen at the bank—and his son's obsessive search for the secrets he kept.

Expectancy, Deaths, and Selected Health Data brings together a comprehensive collection of birth, mortality, health, and marriage and divorce data into a single volume. It provides a wealth of information compiled by the National Center for Health Statistics and other government agencies. Vital Statistics contains over 225 tables and is divided into four parts: Births, Mortality, Health, and Marriage and Divorce. Charts and graphs, available at applicable points in each chapter, illustrate some of the most vital trends in the data. In addition, updated definitions reflect the latest federal parameters for information about births, mortality, health, and marriages. New COVID-19 data is woven into each section where appropriate. Some of the new tables include data on pregnant women with COVID-19, historical daily case trends, and demographic characteristics of people receiving the vaccine.

Tracy Chevalier 'A beautifully intimate story of friendship, love and hope' - Douglas Stuart, author of *Shuggie Bain* 'Something rare and beautiful' - Marian Keyes **The Longing for Less** Kyle Chayka 2020-01-21 New York Times Book Review Editor's Choice "More than just a story of an abiding cultural preoccupation, *The Longing For Less* peels back the commodified husk of minimalism to reveal something surprising and thoroughly alive." -Jenny Odell, author of *How to Do Nothing* "Less is more": Everywhere we hear the mantra. Marie Kondo and other decluttering gurus promise that shedding our stuff will solve our problems. We commit to cleanse diets and strive for inbox zero. Amid the frantic pace and distraction of everyday life, we covet silence-and airy, Instagrammable spaces in which to enjoy it. The popular term for this brand of upscale austerity, "minimalism," has mostly come

13/29

*Downloaded from*  
[www.allindiajobs.in](http://www.allindiajobs.in) on  
August 17, 2022 by guest

to stand for things to buy and consume. But minimalism has richer, deeper, and altogether more valuable gifts to offer. Kyle Chayka is one of our sharpest cultural observers. After spending years covering minimalist trends for leading publications, he now delves beneath this lifestyle's glossy surface, seeking better ways to claim the time and space we crave. He shows that our longing for less goes back further than we realize. His search leads him to the philosophical and spiritual origins of minimalism, and to the stories of artists such as Agnes Martin and Donald Judd; composers such as John Cage and Julius Eastman; architects and designers; visionaries and misfits. As Chayka looks anew at their extraordinary lives and explores the places where they worked—from Manhattan lofts to the Texas high desert and the back alleys of Kyoto—he reminds us that what we most require is presence, not

absence. The result is an elegant new synthesis of our minimalist desires and our profound emotional needs.

**Facebook** Steven Levy  
2020-02-25 One of the Best Technology Books of 2020—Financial Times “Levy’s all-access Facebook reflects the reputational swan dive of its subject. . . . The result is evenhanded and devastating.”—San Francisco Chronicle “[Levy’s] evenhanded conclusions are still damning.”—Reason “[He] doesn’t shy from asking the tough questions.”—The Washington Post “Reminds you the HBO show Silicon Valley did not have to reach far for its satire.”—NPR.org The definitive history, packed with untold stories, of one of America’s most controversial and powerful companies: Facebook As a college sophomore, Mark Zuckerberg created a simple website to serve as a campus social network.

*Downloaded from  
[www.allindiajobs.in](http://www.allindiajobs.in) on  
August 17, 2022 by guest*

Today, Facebook is nearly unrecognizable from its first, modest iteration. In light of recent controversies surrounding election-influencing “fake news” accounts, the handling of its users’ personal data, and growing discontent with the actions of its founder and CEO—who has enormous power over what the world sees and says—never has a company been more central to the national conversation.

Millions of words have been written about Facebook, but no one has told the complete story, documenting its ascendancy and missteps. There is no denying the power and omnipresence of Facebook in American daily life, or the imperative of this book to document the unchecked power and shocking techniques of the company, from growing at all costs to outmaneuvering its biggest rivals to acquire WhatsApp and Instagram, to developing a platform so addictive even some of its own

are now beginning to realize its dangers. Based on hundreds of interviews from inside and outside Facebook, Levy’s sweeping narrative of incredible entrepreneurial success and failure digs deep into the whole story of the company that has changed the world and reaped the consequences.

*Proceedings of the Future Technologies Conference (FTC) 2020, Volume 2* Kohei Arai 2020-10-31 This book provides the state-of-the-art intelligent methods and techniques for solving real-world problems along with a vision of the future research. The fifth 2020 Future Technologies Conference was organized virtually and received a total of 590 submissions from academic pioneering researchers, scientists, industrial engineers, and students from all over the world. The submitted papers covered a wide range of important topics including but not limited to computing,

Downloaded from  
[www.allindiajobs.in](http://www.allindiajobs.in) on  
August 17, 2022 by guest

electronics, artificial intelligence, robotics, security and communications and their applications to the real world. After a double-blind peer review process, 210 submissions (including 6 poster papers) have been selected to be included in these proceedings. One of the meaningful and valuable dimensions of this conference is the way it brings together a large group of technology geniuses in one venue to not only present breakthrough research in future technologies, but also to promote discussions and debate of relevant issues, challenges, opportunities and research findings. The authors hope that readers find the book interesting, exciting and inspiring.

**Prosperity without Growth** Tim Jackson 2016-12-08 What can prosperity possibly mean in a world of environmental and social limits? The publication of *Prosperity without Growth* was a landmark in the sustainability

debate. Tim Jackson's piercing challenge to conventional economics openly questioned the most highly prized goal of politicians and economists alike: the continued pursuit of exponential economic growth. Its findings provoked controversy, inspired debate and led to a new wave of research building on its arguments and conclusions. This substantially revised and re-written edition updates those arguments and considerably expands upon them. Jackson demonstrates that building a 'post-growth' economy is a precise, definable and meaningful task. Starting from clear first principles, he sets out the dimensions of that task: the nature of enterprise; the quality of our working lives; the structure of investment; and the role of the money supply. He shows how the economy of tomorrow may be transformed in ways that protect employment, facilitate social investment,

Shiller 2020-09-01 From Nobel Prize-winning economist and New York Times bestselling author Robert Shiller, a groundbreaking account of how stories help drive economic events—and why financial panics can spread like epidemic viruses. Stories people tell—about financial confidence or panic, housing booms, or Bitcoin—can go viral and powerfully affect economies, but such narratives have traditionally been ignored in economics and finance because they seem anecdotal and unscientific. In this groundbreaking book, Robert Shiller explains why we ignore these stories at our peril—and how we can begin to take them seriously. Using a rich array of examples and data, Shiller argues that studying popular stories that influence individual and collective economic behavior—what he calls "narrative economics"—may vastly improve our ability to

predict, prepare for, and lessen the damage of financial crises and other major economic events. The result is nothing less than a new way to think about the economy, economic change, and economics. In a new preface, Shiller reflects on some of the challenges facing narrative economics, discusses the connection between disease epidemics and economic epidemics, and suggests why epidemiology may hold lessons for fighting economic contagions.

*Deacon King Kong* James McBride 2020-06-11 ☆ NEW YORK TIMES BESTSELLER AND OPRAH'S BOOK CLUB PICK ☆ CHOSEN BY BARACK OBAMA AS A FAVOURITE READ ☆ TOP TEN BOOKS OF THE YEAR, NEW YORK TIMES & WASHINGTON POST 'Brilliantly imagined, larger than life, a tragicomic epic of intertwined lives.' JOYCE CAROL OATES 'Deeply felt, beautifully written and

profoundly humane.' JUNOT DIAZ, New York Times Book Review The year is 1969. In a housing project in south Brooklyn, a shambling old church deacon called Sportcoat shoots - for no apparent reason - the local drug-dealer who used to be part of the church's baseball team. The repercussions of that moment draw in the whole community, from Sportcoat's best friend - Hot Sausage - to the local Italian mobsters, the police (corrupt and otherwise), and the stalwart ladies of the Five Ends Baptist Church. DEACON KING KONG is a book about a community under threat, about the ways people pull together in an age when the old rules are being rewritten. It is very funny in places, and heartbreaking in others. From a prize-winning storyteller, this New York Times bestseller shows us that not all secrets are meant to be hidden, and that the communities we build are fragile but vital.

\_\_\_\_\_ From the winner of a National Book Award and author of the bestselling memoir, *The Color of Water*, and *The Good Lord Bird*, a TV series starring Ethan Hawke 'A hilarious, pitch-perfect comedy set in the Brooklyn projects of the late 1960s. This alone may qualify it as one of the year's best novels.' The Washington Post What Goodreads readers are saying: \*\*\*\*\* 'Deacon King Kong is one of those novels whose brilliance sneaks up on you. I haven't been this pleasantly surprised by a book in a while.' \*\*\*\*\* 'I do believe I just finished one of my all time favorite books. I loved every minute spent with Sportcoat and his community. A good old fashioned yarn shot through with truth, spirit, and humor. I LOVED it!' \*\*\*\*\* 'This book was a balm for my soul, a portrait of a black church community circa 1969 with sweet characters (well, most of

them), interconnections that stretch back decades, and a plot with more than one mystery at its heart.' \*\*\*\*\* "'Deacon" has the texture of folk lore and fable mixed with the unexpected rhythms of jazz and the noisy streets of late 1960s Brooklyn.' \*\*\*\*\* 'The ending was one of those where you clutch your heart and want to hug the book (or your Kindle).'

*Plan de développement économique et social Madagascar 1957*

**Revenue Director's Order 2020**

*Freedom in the World 2015*

Freedom House 2015-12-24

Freedom in the World, the

Freedom House flagship survey

whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media,

international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars.

The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic

development.

## **Residential Tenancy Branch**

**Practice Directive 2020-02** British Columbia. Residential Tenancy 2020

### Insight Turkey 2020/02

2020-07-01 Turkey and the United States have been going through dramatic changes after the collapse of the Soviet Union and the end of the Cold War. Both countries began to search for new political identities in the international system. With the end of ideological competition, the U.S. remained unchallenged for a while, and this has created an identity crisis for the U.S. With the beginning of the 21st century, especially with the September 11 attacks, the U.S. declared international terrorism as the new other of the Western world. Similarly, Turkey has adjusted its foreign policy orientation according to the post-Cold War realities. After the loosening of the Western alliance and the decline of U.S.

superiority in the international system, Turkey began to follow a more assertive foreign policy in order to increase its role and autonomy in international politics. While the relative power of the U.S. has been declining, Turkey's economic and political power has been rising. On the one hand, the U.S. does not perform the role of the global hegemon anymore. The U.S. government refuses to provide global public goods such as international security and free trade. As can be observed in its recognition of 'united Jerusalem' as the capital of Israel, the Israeli occupation of the West Bank and the annexation of the Golan Heights, the U.S. even does not abide by the principles of international law. On the other hand, Turkey has been trying to improve its relations with different global and regional powers. In addition to its traditional Western allies, Turkey began to engage with

other regions and continents including East Asia, Africa, and Latin America. Turkey has been attempting to restructure its foreign policy into a more diversified and independent one. The more Turkey follows an independent foreign policy, the more it has been otherized by the Western countries, the U.S. in particular. Eventually, the longtime Turkish-American partnership began to be questioned. Bilateral relations of the two formal allies have been going through troubled times. The Turkish-U.S. alliance or strategic partnership has been questioned by different issues such as the purchase of S-400 missiles, the American financial and military support for YPG/PKK, the protection of FETÖ ringleader in Pennsylvania, and the U.S. cooperation with the anti-Turkey bloc in the Middle East. Pro-Israeli lobbies in Washington D.C. have abandoned their traditional

pro-Turkey stance especially when Turkey and Israel began to confront in the Middle East. Furthermore, the United Arab Emirates and Saudi Arabia have bought most of the American lobbies to mobilize the Congress and the White House against Turkey. Finally, these lobbies have openly mobilized support from the American authorities to support FETÖ and PKK/PYD/YPG against Turkey, which has led to the increase of anti-American feelings in Turkey. Nowadays, there are significant differences in Turkish and American foreign policies, with their perspectives of the Middle East and the global system being quite different, in some cases opposing. At the regional level, while the U.S. supports the authoritarian regimes of the region, Turkey has been supporting the mainstream popular movements. As in the Syrian and Libyan crises, the U.S. does not support

Turkey even in its confrontation with the Russian Federation, the main 'other' of the NATO alliance. At the global level, the U.S. is not happy with the system that has been established in the wake of the Second World War, yet it is not offering any alternative. However, Turkey asks for the transformation and reformation of the global system to make it more inclusive and representative. All these differences have led to simmering tensions and mutual mistrust and created an atmosphere to question the entire bilateral relationship and the seventy-year long alliance. The two countries are unable to align their counter-terrorism strategies due to the U.S. instrumentalization of one terrorist group in its struggle against another. It becomes more and more difficult for a confused U.S., which has been following a unilateral global policy, and a Turkey, which has been trying

to change its position in the international hierarchy, to coordinate their relations. As both countries are going through hard times and transitory periods, it will take time for them to adjust themselves to new global realities. Ultimately, they will have to redefine their foreign policies according to their strategic priorities. Considering that it is not the rise of Turkey, but that of China and Russia which threatens the American global hegemony, the U.S. will eventually have to rethink its stern anti-Turkish stance in the Middle East. This issue of Insight Turkey brings to its readers six papers touching upon this ever-changing Turkey-U.S. relationship. Three commentaries and three articles focusing on Turkey-U.S. relations are worth reading to better understand the main issues, challenges, as well as opportunities under the light of recent conjunctures. These pieces concentrate on differing

perspectives of the two countries, especially in the last decade, and the interdependence between them. Luke Coffey presents a new perspective about Turkey-U.S. relations, which after decades of cooperation, is at an all-time low. Emphasizing the importance of hard work, persistence, and comprehension of the various policy disputes, he encourages policymakers to “start small and think big to rebuild this relationship,” which once was a cornerstone of the success of NATO. Coffey maintains that the two countries will continue to matter for one another for a foreseeable future. Kadir Üstun provides a comprehensive analysis on how Turkey-U.S. relations have been able to survive despite years of strategic feuds and diverging interests. He asserts that both actors seem to have learned how to compartmentalize most bilateral and international issues and tensions. Üstun also points out

that as Turkey and the U.S. have disengaged from “inorganic” channels in their bilateral relations, they now have a healthier, even if more conflictual, relationship.

However, U.S. policies in the Syrian crisis, such as supporting the PKK/PYD/YPG, have damaged the mutual bonds. Jennifer Miel’s commentary provides a timely analysis for Turkey-U.S. relations, which once were led by defense and security ties but have become a keystone of economic affairs. Miel examines the economic and commercial opportunities in key sectors for the United States and Turkey during and after the COVID-19 pandemic. She argues that both states can benefit mutually from a more robust collaboration in relatively less notable sectors such as healthcare, the digital economy, and finance. In addition to these three commentaries, this issue includes three research articles focusing

on Turkish-U.S. relations, as well as their foreign policies, under the COVID-19 pandemic. Burhanettin Duran sheds light on the on-going great power competition and argues that the pandemic will not establish a new international system, but will certainly affect it by creating a global instability where states will invest in self-sufficiency and redefine their strategic areas. As the main topics that will define the future of the international system, Duran draws particular attention to the decline of U.S. hegemony, the challenging policies of China, the U.S.-China relations, and the EU's deepening crisis. In his article, Mustafa Kibaroglu focuses on the prospects of Turkish-U.S. relations in the post-COVID international order. He specifically discusses if this pandemic would grant a favorable environment for Turkey and the United States to reset their relations in order to

accommodate themselves better to the new realities in international politics. Çağatay Özdemir's article focuses on Turkey's position and reactions within the framework of the international competition over natural gas and oil in the Eastern Mediterranean. In the middle of the balance-of-power politics in the region, Turkey is being isolated through unilateral actions and guided alliances. Describing the situation as a U.S.-backed containment of Turkey, Özdemir examines the formation of the anti-Turkish bloc and discusses its possible repercussions in Turkish foreign policy. Besides the pieces covering Turkey-U.S. relations, this issue also includes a number of commentaries and articles covering different issues relating to Turkey, the Middle East, and international politics. In their analysis on Turkey's current position and policy in Libya, Emrah Kekilli and Bilgehan Öztürk present the grounds for

and nature of Turkey's increasing cooperation with Libya's Government of National Accord (GNA). They also claim that Turkey's support to the GNA has changed the dynamics in the conflict in Libya. The commentary by Dmitry Shlapentokh examines Russia's gas price discount for Bulgaria. The author links the discount to frequently unfavorable circumstances for Gazprom's operations in Europe in general, and in Bulgaria in particular. This commentary highlights that with the emerging alternatives to Russian gas, Bulgaria was able to negotiate with Russia for a more favorable price in obtaining natural gas. In his article, M. A. Muqtadar Khan argues that a post-orientalist discussion has arisen over the past few decades to challenge the dominance of orientalism on Western foreign policy thinking towards Islam and the Muslim. Discussing the geostrategic views of Bernard

Lewis, Edward Said, and John Esposito, Khan concludes that while post-orientalism has triumphed in the academic literature, the orientalist perspective still dominates the policy sphere and continues to shape American foreign policy. Using a rich theoretical literature on leadership and political empowerment, the article by Kasım Timur and Rasim Özgür Dönmez offers an analysis of the mutually empowering relations between Turkish President Recep Tayyip Erdoğan and his followers. In order to illustrate how leaders and followers influence each other in times of political crisis, as a case study, the article examines how Erdoğan's charismatic leadership galvanized his followers during the July 15 coup attempt in Turkey, and how his followers' support has further empowered Erdoğan as a leader. In recent years, the use of social media discourse has shifted from having a positive effect on

democratization to a tool threatening democracy. In this regard, Turgay Yerlikaya focuses on how virtual social networks affect socio-political life, particularly how networks such as Facebook and Twitter can shape electoral preferences during election times through manipulative content and fake news. The last article of the issue examines the impact of soap operas as a multi-faceted phenomenon that, as a product of cultural hybridization, can also contribute to cultural hybridization wherever they are broadcasted. In her case study, Ouafaa Rafi examines Turkish soap operas watched in Morocco and discusses the encompassing dynamics at stake when it comes to cultural influence and interaction. This issue of Insight Turkey aims to present the current situation of the Turkish-American relations and to provide to its readers with a general framework of important

events and developments in Turkey and its surrounding regions. We hope that this issue contributes to a better understanding of these crucial issues.

**Sapiens** Yuval Noah Harari  
2015-02-10 New York Times  
Bestseller A Summer Reading  
Pick for President Barack Obama,  
Bill Gates, and Mark Zuckerberg  
From a renowned historian  
comes a groundbreaking  
narrative of humanity's creation  
and evolution—a #1 international  
bestseller—that explores the  
ways in which biology and  
history have defined us and  
enhanced our understanding of  
what it means to be “human.”  
One hundred thousand years ago,  
at least six different species of  
humans inhabited Earth. Yet  
today there is only one—homo  
sapiens. What happened to the  
others? And what may happen to  
us? Most books about the history  
of humanity pursue either a  
historical or a biological approach,

but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work

2020-02

is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

and unflinching,” Alexis Schaitkin’s stunning debut, *Saint X*, is a haunting portrait of grief, obsession, and the bond between two sisters never truly given the chance to know one another. Claire is only seven years old when her college-age sister, Alison, disappears on the last night of their family vacation at a resort on the Caribbean island of Saint X. Several days later, Alison’s body is found in a remote spot on a nearby cay, and two local men—employees at the resort—are arrested. But the evidence is slim, the timeline against it, and the men are soon released. The story turns into national tabloid news, a lurid mystery that will go unsolved. For Claire and her parents, there is only the return home to broken lives. Years later, Claire is living and working in New York City when a brief but fateful encounter brings her

together with Clive Richardson, one of the men originally suspected of murdering her sister. It is a moment that sets Claire on an obsessive pursuit of the truth—not only to find out what happened the night of Alison’s death but also to answer the elusive question: Who exactly was her sister? At seven, Claire had been barely old enough to know her: a beautiful, changeable, provocative girl of eighteen at a turbulent moment of identity formation. As Claire doggedly shadows Clive, hoping to gain his trust, waiting for the slip that will reveal the truth, an unlikely attachment develops between them, two people whose lives were forever marked by the same tragedy. For readers of Emma Cline’s *The Girls* and Lauren Groff’s *Fates and Furies*, *Saint X* is a flawlessly drawn and deeply moving story that culminates in an emotionally powerful ending.
