

2021/04

This is likewise one of the factors by obtaining the soft documents of this **2021/04** by online. You might not require more grow old to spend to go to the ebook inauguration as with ease as search for them. In some cases, you likewise reach not discover the statement 2021/04 that you are looking for. It will utterly squander the time.

However below, in the manner of you visit this web page, it will be therefore very simple to get as competently as download lead 2021/04

It will not allow many get older as we explain before. You can attain it even though decree something else at home and even in your workplace. suitably easy! So, are you question? Just exercise just what we pay for under as with ease as review **2021/04** what you next to read!

[A Legal Framework for AI Systems](#) 2021 With this feasibility study, the CAHAI (Ad hoc Committee on Artificial Intelligence) has explored the reasons as to why a legal framework on the development, design and application of AI, based on Council of Europe's standards on human rights, democracy and the rule of law is needed. A number of substantive and procedural gaps were identified, which show that there is a need for a more comprehensive governance framework and an effective international legal response. The study concludes that a comprehensive legal framework combining binding and non-binding legal instruments, that complement each other, is the way forward.

[Lecture Slides for Programming in C++ \(Version 2021-04-01\)](#) Michael D. Adams 2021-04-01 This document, which consists of approximately 2900 lecture slides, offers a wealth of information on many topics relevant to programming in C++, including coverage of the C++ language itself, the C++ standard library and a variety of other libraries, numerous software tools, and an assortment of other programming-related topics. The coverage of the C++ language and standard library is current with the C++20 standard. C++ PROGRAMMING LANGUAGE. Many aspects of the C++ language are covered from introductory to more advanced. This material includes: the preprocessor, language basics (objects, types, values, operators, expressions, control-flow constructs, functions, namespaces, and comparison), classes, templates (function, class, variable, and alias templates, variadic templates, template specialization, and SFINAE), concepts, lambda expressions, inheritance (run-time polymorphism and CRTP), exceptions (exception safety and RAI), smart pointers, memory management (new and delete operators and expressions, placement new, and allocators), rvalue references (move semantics and perfect forwarding), coroutines, concurrency (memory models, and happens-before and synchronizes-with relationships), modules, compile-time computation, and various other topics (e.g., copy elision and initialization). C++ STANDARD LIBRARY AND VARIOUS OTHER LIBRARIES. Various aspects of the C++ standard library are covered including: containers, iterators, algorithms, ranges, I/O streams, time measurement, and concurrency support (threads, mutexes, condition variables, promises and futures, atomics, and fences). A number of Boost libraries are discussed, including the Intrusive, Iterator, and Container libraries. The OpenGL library and GLSL are discussed at length, along with several related libraries, including: GLFW, GLUT, and GLM. The CGAL library is also discussed in some detail. SOFTWARE TOOLS. A variety of software tools are discussed, including: static analysis tools (e.g., Clang Tidy and Clang Static Analyzer), code sanitizers (e.g., ASan, LSan, MSan, TSan, and UBSan), debugging and testing tools (e.g., Valgrind, LLVM XRay, and Catch2), performance analysis tools (e.g., Perf, PAPI, Gprof, and Valgrind/Callgrind), build tools (e.g., CMake and Make), version control systems (e.g., Git), code coverage analysis tools (e.g., Gcov, LLVM Cov, and Lcov), online C++ compilers (e.g., Compiler Explorer and C++ Insights), and code completion tools (e.g., YouCompleteMe, and LSP clients/servers). OTHER TOPICS. An assortment of other programming-related topics are also covered, including: data structures, algorithms, computer arithmetic (e.g., floating-point arithmetic and interval arithmetic), cache-efficient algorithms, vectorization, good programming practices, software documentation, software testing (e.g., static and dynamic testing, and structural coverage analysis), and compilers and linkers (e.g., Itanium C++ ABI).

The Promise Damon Galgut 2021-06-17 WINNER OF THE BOOKER PRIZE 2021 One family. One promise. One chance to tell a new story. **AS HEARD ON BBC RADIO 4 BOOK AT BEDTIME** 'A moving, brilliantly told family epic' Elizabeth Day 'Superb' Paula Hawkins 'Gripping' Daily Mail THE SUNDAY TIMES BESTSELLER _____ On a farm outside Pretoria, the Swarts are gathering for Ma's funeral. The younger

generation, Anton and Amor, detest everything the family stand for - not least their treatment of the Black woman who has worked for them her whole life. Salome was to be given her own house, her own land...yet somehow, that vow is carefully ignored. As each decade passes, and the family assemble again, one question hovers over them. Can you ever escape the repercussions of a broken promise?

_____ 'A tour de force... A spectacular demonstration of how the novel can make us see and think afresh' Booker Judges, 2021 'So powerful' Clare Chambers 'Astonishing' Colm Tóibín 'Bursting with life' The Times 'Utterly compelling' Patrick Gale Shortlisted for the 2022 Rathbones Folio Prize ** A BOOK OF THE YEAR IN THE SUNDAY TIMES, GUARDIAN, OBSERVER, DAILY TELEGRAPH, i AND NEW STATESMAN **

[Hybrid Workplace: The Insights You Need from Harvard Business Review](#) Harvard Business Review 2022-03-15 Reinvent your organization for the hybrid age. Hybrid work is here to stay—but what will it look like at your company? Organizations that mandate rigid, prepandemic policies of five days a week at the traditional, co-located office may risk a mass exodus of talent. But designing a hybrid office that furthers your business goals while staying true to your culture will require experimentation and rigorous planning. Hybrid Workplace: The Insights You Need from Harvard Business Review will help you adopt technological, cultural, and management practices that will let you seize the benefits and avoid the pitfalls of the hybrid age. Business is changing. Will you adapt or be left behind? Get up to speed and deepen your understanding of the topics that are shaping your company's future with the Insights You Need from Harvard Business Review series. Featuring HBR's smartest thinking on fast-moving issues—blockchain, cybersecurity, AI, and more—each book provides the foundational introduction and practical case studies your organization needs to compete today and collects the best research, interviews, and analysis to get it ready for tomorrow. You can't afford to ignore how these issues will transform the landscape of business and society. The Insights You Need series will help you grasp these critical ideas—and prepare you and your company for the future.

[Extra Life](#) Steven Johnson 2021-05-11 "Offers a useful reminder of the role of modern science in fundamentally transforming all of our lives." —President Barack Obama (on Twitter) "An important book." —Steven Pinker, The New York Times Book Review The surprising and important story of how humans gained what amounts to an extra life, from the bestselling author of *How We Got to Now* and *Where Good Ideas Come From* In 1920, at the end of the last major pandemic, global life expectancy was just over forty years. Today, in many parts of the world, human beings can expect to live more than eighty years. As a species we have doubled our life expectancy in just one century. There are few measures of human progress more astonishing than this increased longevity. *Extra Life* is Steven Johnson's attempt to understand where that progress came from, telling the epic story of one of humanity's greatest achievements. How many of those extra years came from vaccines, or the decrease in famines, or seatbelts? What are the forces that now keep us alive longer? Behind each breakthrough lies an inspiring story of cooperative innovation, of brilliant thinkers bolstered by strong systems of public support and collaborative networks, and of dedicated activists fighting for meaningful reform. But for all its focus on positive change, this book is also a reminder that meaningful gaps in life expectancy still exist, and that new threats loom on the horizon, as the COVID-19 pandemic has made clear. How do we avoid decreases in life expectancy as our public health systems face unprecedented challenges? What current technologies or interventions that could reduce the impact of future crises are we somehow ignoring? A study in how meaningful change happens in society, *Extra Life* celebrates the enduring power of common goals and

beyond.

Ancient Greek Lists Athena Kirk 2021-03-31 Pioneering study of the cultural value attached to ancient Greek lists, catalogues, and inventories across literature and epigraphy.

The Atlas of AI Kate Crawford 2021-04-06 The hidden costs of artificial intelligence, from natural resources and labor to privacy and freedom What happens when artificial intelligence saturates political life and depletes the planet? How is AI shaping our understanding of ourselves and our societies? In this book Kate Crawford reveals how this planetary network is fueling a shift toward undemocratic governance and increased inequality. Drawing on more than a decade of research, award-winning science, and technology, Crawford reveals how AI is a technology of extraction: from the energy and minerals needed to build and sustain its infrastructure, to the exploited workers behind "automated" services, to the data AI collects from us. Rather than taking a narrow focus on code and algorithms, Crawford offers us a political and a material perspective on what it takes to make artificial intelligence and where it goes wrong. While technical systems present a veneer of objectivity, they are always systems of power. This is an urgent account of what is at stake as technology companies use artificial intelligence to reshape the world.

Anchoring the World Charles Kupchan 2021-04-15

EIB Working Paper 2021/04 - Aggregate Productivity Slowdown in Europe Marcin Wolski 2021 Using firm balance sheet data, this paper shows the impact of credit constraints on allocative efficiency and productivity growth. Allocative efficiency is the extent to which resources, including labour, are distributed to firms with the highest growth prospects, or "stuck" in less productive firms. This paper uses firm balance sheet data to analyse the role of financial constraints in the relatively muted post-crisis rebound in productivity in 2014-17, compared to previous upturns in Europe. It shows that the level of financial leverage played an important role in explaining the change in aggregate productivity growth in Europe between 2004 and 2017. Focusing on Northern and Western Europe, it also shows that the productivity potential could not be fully exploited due to constraints on access to credit. It estimates that reducing collateral bottlenecks could more than double the effectiveness of financial leverage in spurring productivity growth in this region between 2014-17.

Your Turn Julie Lythcott-Haims 2021-04-06 New York Times bestselling author Julie Lythcott-Haims is back with a groundbreakingly frank guide to being a grown-up What does it mean to be an adult? In the twentieth century, psychologists came up with five markers of adulthood: finish your education, get a job, leave home, marry, and have children. Since then, every generation has been held to those same markers. Yet so much has changed about the world and living in it since that sequence was formulated. All of those markers are choices, and they're all valid, but any one person's choices along those lines do not make them more or less an adult. A former Stanford dean of freshmen and undergraduate advising and author of the perennial bestseller *How to Raise an Adult* and of the lauded memoir *Real American*, Julie Lythcott-Haims has encountered hundreds of twentysomethings (and thirtysomethings, too), who, faced with those markers, feel they're just playing the part of "adult," while struggling with anxiety, stress, and general unease. In *Your Turn*, Julie offers compassion, personal experience, and practical strategies for living a more authentic adulthood, as well as inspiration through interviews with dozens of voices from the rich diversity of the human population who have successfully launched their adult lives. Being an adult, it turns out, is not about any particular checklist; it is, instead, a process, one you can get progressively better at over time—becoming more comfortable with uncertainty and gaining the knowhow to keep going. Once you begin to practice it, being an adult becomes the most complicated yet also the most abundantly rewarding and natural thing. And Julie Lythcott-Haims is here to help readers take their turn.

On Juneteenth Annette Gordon-Reed 2021-05-04 NEW YORK TIMES • 10 BEST BOOKS OF 2021 New York Times • Times Critics Top Books of 2021 New York Times Bestseller Best Books of the Year • Washington Post, TIME, NPR, Oprah Daily, Boston Globe, Christian Science Monitor, Kansas City Independent, Los Angeles Public Library, Washington Independent Review of Books, Spy, Audible, Biblioracle, AbeBooks The essential, sweeping story of Juneteenth's integral importance to American history, as told by a Pulitzer Prize-winning historian and Texas native. Weaving together American history, dramatic family chronicle, and searing episodes of memoir, Annette Gordon-Reed's *On Juneteenth* provides a historian's view of the country's long road to Juneteenth, recounting both its origins in Texas and the enormous hardships that African-Americans have endured in the century since, from Reconstruction through Jim Crow and beyond. All too aware of the stories of cowboys, ranchers, and oilmen

that have long dominated the lore of the Lone Star State, Gordon-Reed—herself a Texas native and the descendant of enslaved people brought to Texas as early as the 1820s—forges a new and profoundly truthful narrative of her home state, with implications for us all. Combining personal anecdotes with poignant facts gleaned from the annals of American history, Gordon-Reed shows how, from the earliest presence of Black people in Texas to the day in Galveston on June 19, 1865, when Major General Gordon Granger announced the end of legalized slavery in the state, African-Americans played an integral role in the Texas story. Reworking the traditional "Alamo" framework, she powerfully demonstrates, among other things, that the slave- and race-based economy not only defined the fractious era of Texas independence but precipitated the Mexican-American War and, indeed, the Civil War itself. In its concision, eloquence, and clear presentation of history, *On Juneteenth* vitally revises conventional renderings of Texas and national history. As our nation verges on recognizing June 19 as a national holiday, *On Juneteenth* is both an essential account and a stark reminder that the fight for equality is exigent and ongoing.

Proceedings of the 2021 15th International Conference on Ubiquitous Information Management and Communication Sukhan Lee 2021

Valuation McKinsey & Company Inc. 2010-07-16 The number one guide to corporate valuation is back and better than ever Thoroughly revised and expanded to reflect business conditions in today's volatile global economy, *Valuation, Fifth Edition* continues the tradition of its bestselling predecessors by providing up-to-date insights and practical advice on how to create, manage, and measure the value of an organization. Contains strategies for multi-business valuation and valuation for corporate restructuring, mergers, and acquisitions Addresses how you can interpret the results of a valuation in light of a company's competitive situation Also available: a book plus CD-ROM package (978-0-470-42469-8) as well as a stand-alone CD-ROM (978-0-470-42457-7) containing an interactive valuation DCF model *Valuation, Fifth Edition* stands alone in this field with its reputation of quality and consistency. If you want to hone your valuation skills today and improve them for years to come, look no further than this book.

What We Owe Each Other Minouche Shafik 2021-03-04 LONGLISTED FOR THE 2021 FT / McKinsey BUSINESS BOOK OF THE YEAR AWARD One of the world's most influential economists sets out the basis for a new social contract fit for the 21st century. 'Excellent... Shafik points us toward...a hopeful framework for social, economic and political renewal' Michael J. Sandel _____ What does society owe each of us? And what do we owe in return? Our answer to these inescapable questions - known as the social contract - shapes our politics, economic systems and every stage of life, from raising children and going to school to finding work and growing old. Yet today, many believe that this contract is not working for them. Economist Minouche Shafik examines societies across the world and demonstrates that the urgent challenges of technology, demography and climate require a major shift in priorities. This vision-changing book shows us the way to a new model that provides mutual security and opportunity - a social contract fit for the twenty-first century. _____ 'Intelligent and lucid' Martin Wolf, Financial Times 'A powerful and persuasive moral argument...rigorous and specific enough to help readers think practically about the policies needed' Melinda Gates 'A necessary contribution at a turning-point in history... A must-read' Ursula von der Leyen A PROSPECT MAGAZINE BEST BOOK OF 2021

State of South Carolina Department of Insurance Order Number 2021-04 2021 This order deals with insurance rates for health and accident insurance in South Carolina.

Whereabouts Jhumpa Lahiri 2021-04-27 NEW YORK TIMES BEST SELLER • A marvelous new novel from the Pulitzer Prize-winning author of *The Lowland* and *Interpreter of Maladies*—her first in nearly a decade—about a woman questioning her place in the world, wavering between stasis and movement, between the need to belong and the refusal to form lasting ties. Exuberance and dread, attachment and estrangement: in this novel, Jhumpa Lahiri stretches her themes to the limit. In the arc of one year, an unnamed narrator in an unnamed city, in the middle of her life's journey, realizes that she's lost her way. The city she calls home acts as a companion and interlocutor: traversing the streets around her house, and

in parks, piazzas, museums, stores, and coffee bars, she feels less alone. We follow her to the pool she frequents, and to the train station that leads to her mother, who is mired in her own solitude after her husband's untimely death. Among those who appear on this woman's path are colleagues with whom she feels ill at ease, casual acquaintances, and "him," a shadow who both consoles and unsettles her. Until one day at the sea, both overwhelmed and replenished by the sun's vital heat, her perspective will abruptly change. This is the first novel Lahiri has written in Italian and translated into English. The reader will find the qualities that make Lahiri's work so beloved: deep intelligence and feeling, richly textured physical and emotional landscapes, and a poetics of dislocation. But *Whereabouts*, brimming with the impulse to cross barriers, also signals a bold shift of style and sensibility. By grafting herself onto a new literary language, Lahiri has pushed herself to a new level of artistic achievement.

On the House John Boehner 2021-04-13 * INSTANT #1 NEW YORK TIMES BESTSELLER * #1 WALL STREET JOURNAL BESTSELLER * "A rollicking, foil-mouthed" [memoir]....Boehner has delivered a classic Washington "tell-all," albeit one with his typical jocular style." --The Washington Post Former Speaker of the House John Boehner shares colorful tales from the halls of power, the smoke-filled rooms around the halls of power, and his fabled tour bus. John Boehner is the last of a breed. At a time when the arbiters of American culture were obsessing over organic kale, cold-pressed juice, and SoulCycle, the man who stood second in line to the presidency was unapologetically smoking Camels, quaffing a glass of red, and hitting the golf course whenever he could. There could hardly have been a more diametrically opposed figure to represent the opposition party in President Barack Obama's Washington. But when Boehner announced his resignation, President Obama called to tell the outgoing Speaker that he'd miss him. "Mr. President," Boehner replied, "yes you will." He thought of himself as a "regular guy with a big job," and he enjoyed it. In addition to his own stories of life in the swamp city and of his comeback after getting knocked off the leadership ladder, Boehner offers his impressions of leaders he's met and what made them successes or failures, from Ford and Reagan to Obama, Trump, and Biden. He shares his views on how the Republican Party has become unrecognizable today; the advice--some harsh, some fatherly--he dished out to members of his own party, the opposition, the media, and others; and his often acid-tongued comments about his former colleagues. And of course he talks about golfing with five presidents. Through Speaker Boehner's honest and self-aware reflections, you'll be reminded of a time when the adults were firmly in charge.

The Third Pole Mark Synnott 2021-04-13 ***NPR Books We Love selection*** "If you're only going to read one Everest book this decade, make it *The Third Pole*. . . . A riveting adventure."—Outside Shivering, exhausted, gasping for oxygen, beyond doubt . . . A hundred-year mystery lured veteran climber Mark Synnott into an unlikely expedition up Mount Everest during the spring 2019 season that came to be known as "the Year Everest Broke." What he found was a gripping human story of impassioned characters from around the globe and a mountain that will consume your soul—and your life—if you let it. The mystery? On June 8, 1924, George Mallory and Sandy Irvine set out to stand on the roof of the world, where no one had stood before. They were last seen eight hundred feet shy of Everest's summit still "going strong" for the top. Could they have succeeded decades before Sir Edmund Hillary and Tenzing Norgay? Irvine is believed to have carried a Kodak camera with him to record their attempt, but it, along with his body, had never been found. Did the frozen film in that camera have a photograph of Mallory and Irvine on the summit before they disappeared into the clouds, never to be seen again? Kodak says the film might still be viable. . . . Mark Synnott made his own ascent up the infamous North Face along with his friend Renan Ozturk, a filmmaker using drones higher than any had previously flown. Readers witness first-hand how Synnott's quest led him from oxygen-deprivation training to archives and museums in England, to Kathmandu, the Tibetan high plateau, and up the North Face into a massive storm. The infamous traffic jams of climbers at the very summit immediately resulted in tragic deaths. Sherpas revolted. Chinese officials turned on Synnott's team. An Indian woman miraculously crawled her way to frostbitten survival. Synnott himself went off the safety rope—one slip and no one would have been able to save him—committed to solving the mystery. Eleven climbers died on Everest that season, all of them mesmerized by an irresistible magic. *The Third Pole* is a rapidly accelerating ride to the limitless joy and horror of human obsession.

300 50 Exercises for Programming in C++ (Version 2021-04-01) Michael D. Adams 2021-04-01 This book presents a large collection of exercises for learning to program in C++. A study plan for learning C++ based on a collection of video lectures and supplemental reading is also provided. **Machine Learning for Asset Managers** Marcos M. López de Prado 2020-04-22 Successful investment strategies are specific implementations of general theories. An investment strategy that lacks a theoretical justification is likely to be false. Hence, an asset manager should concentrate her efforts on developing a theory rather than on backtesting potential trading rules. The purpose of this Element is to introduce machine learning (ML) tools that can help asset managers discover economic and financial theories. ML is not a black box, and it does not necessarily overfit. ML tools complement rather than replace the classical statistical methods. Some of ML's strengths include (1) a focus on out-of-sample predictability over variance adjudication; (2) the use of computational methods to avoid relying on (potentially unrealistic) assumptions; (3) the ability to "learn" complex specifications, including nonlinear, hierarchical, and noncontinuous interaction effects in a high-dimensional space; and (4) the ability to disentangle the variable search from the specification search, robust to multicollinearity and other substitution effects.

Functionalized Cellulose Decontamination Agent Vanja Kokol 2021 **First Person Singular** Haruki Murakami 2021-04-06 A mindbending new collection of short stories from the unique, internationally acclaimed author of *Norwegian Wood* and *The Wind-up Bird Chronicle*. THE SUNDAY TIMES BESTSELLER The eight masterly stories in this new collection are all told in the first person by a classic Murakami narrator. From nostalgic memories of youth, meditations on music and an ardent love of baseball to dreamlike scenarios, an encounter with a talking monkey and invented jazz albums, together these stories challenge the boundaries between our minds and the exterior world. Occasionally, a narrator who may or may not be Murakami himself is present. Is it memoir or fiction? The reader decides. Philosophical and mysterious, the stories in *First Person Singular* all touch beautifully on love and solitude, childhood and memory. . . all with a signature Murakami twist. A GUARDIAN AND SUNDAY TIMES 'BOOKS OF 2021' PICK

A Legal Framework for AI Systems 2021 **Valuation** McKinsey & Company Inc. 2020-06-23 McKinsey & Company's #1 best-selling guide to corporate valuation—the fully updated seventh edition *Valuation* has been the foremost resource for measuring company value for nearly three decades. Now in its seventh edition, this acclaimed volume continues to help financial professionals around the world gain a deep understanding of valuation and help their companies create, manage, and maximize economic value for their shareholders. This latest edition has been carefully revised and updated throughout, and includes new insights on topics such as digital, ESG (environmental, social and governance), and long-term investing, as well as fresh case studies. Clear, accessible chapters cover the fundamental principles of value creation, analyzing and forecasting performance, capital structure and dividends, valuing high-growth companies, and much more. The Financial Times calls the book "one of the practitioners' best guides to valuation." This book: Provides complete, detailed guidance on every crucial aspect of corporate valuation Explains the strategies, techniques, and nuances of valuation every manager needs to know Covers both core and advanced valuation techniques and management strategies Features/Includes a companion website that covers key issues in valuation, including videos, discussions of trending topics, and real-world valuation examples from the capital markets For over 90 years, McKinsey & Company has helped corporations and organizations make substantial and lasting improvements in their performance. Through seven editions and 30 years, *Valuation: Measuring and Managing the Value of Companies*, has served as the definitive reference for finance professionals, including investment bankers, financial analysts, CFOs and corporate managers, venture capitalists, and students and instructors in all areas of finance.

Before the Public Utilities Commission of the State of California, Application of Pacific Gas and Electric Company to Market Value Hydroelectric Generating Plants and Related Assets Pursuant to Public Utilities Code Sections 367(b) and 851 (U39 E): Project description and summary 1999

Empire of Pain Patrick Radden Keefe 2021-04-20 THE SUNDAY TIMES BESTSELLER Now on BBC Radio 4 'Book of the Week' Winner of the 2021 Baillie Gifford Prize for Non-Fiction Shortlisted for the 2021 Financial Times/McKinsey Business Book of the Year Award One of Barack Obama's

Favorite Books of 2021 Shortlisted for the Crime Writers' Association Gold Dagger for Non-Fiction The gripping and shocking story of three generations of the Sackler family and their roles in the stories of Valium, OxyContin and the opioid crisis. 'One of those authors I will always read, no matter what the subject matter, which is why I gobbled up Empire of Pain . . . a masterclass in compelling narrative nonfiction.' - Elizabeth Day, The Guardian '30 Best Summer Reads' 'You feel almost guilty for enjoying it so much' - The Times The Sackler name adorns the walls of many storied institutions - Harvard; the Metropolitan Museum of Art; Oxford; the Louvre. They are one of the richest families in the world, known for their lavish donations in the arts and the sciences. The source of the family fortune was vague, however, until it emerged that the Sacklers were responsible for making and marketing Oxycontin, a blockbuster painkiller

that was a catalyst for the opioid crisis - an international epidemic of drug addiction which has killed nearly half a million people. In this masterpiece of narrative reporting and writing, award-winning journalist and host of the Wind of Change podcast Patrick Radden Keefe exhaustively documents the jaw-dropping and ferociously compelling reality. Empire of Pain is the story of a dynasty: a parable of twenty-first-century greed.
